

## CAUTION: READ THIS MANUAL BEFORE OPERATING YOUR UNIT

1. To assure the finest performance, please read this manual carefully.
2. Install this unit in a cool, dry, clean place, away from windows, heat sources, sources of excessive vibration, dust, moisture and cold. Avoid sources of humming(transformers, motors). To prevent fire or electrical shock, do not expose the unit to rain or water.
3. Never open the cabinet. If something drops into the set, contact your dealer.
4. Do not use force on switches, controls or connection wires. When moving the unit, first disconnect the power plug and the wires connected to other equipment. Never pull the wire itself.
5. Do not attempt to clean the unit with chemical solvents; this might damage the finish. Use a clean, dry cloth.
6. Be sure to read the "ROUBLESHOOTING" section regarding common operating errors before concluding the unit is faulty.
7. To prevent lightning damage, disconnect the AC power plug when there is an electrical storm.
8. Since this unit has a built-in power amplifier, heat will radiate from the rear panel. Therefore, place the unit apart from the walls, allowing enough space above, behind and on the both sides of the unit to prevent fire and damage. Also do not position with the rear panel facing down on the floor or other surface.
9. Vibration generated by super-bass frequencies may cause images on a TV to be distorted, CD's/DVD's to skip. In such a case, move the unit away from the affected appliance.
10. This unit features a magnetically shielded design, but there is still a chance that placing it too close to a TV set might impair picture color. Should this happen, move this unit away from the TV set.
11. If you hear distortion (i.e., unnatural, intermittent ammering, sounds) coming form this unit, reduce the volume level. Extremely loud playing of a movie soundtrack's low frequency, bass-heavy sounds or similarly loud popular music passages can damage this speaker system.
12. Secure placement or installation is the owner's responsibility. shall not be liable for any accident caused by Improper placement or installation of speakers.

## PRODCT FEATURE

- With handle and wheel for easy carry
- Three powers : 3.7 V battery
- Support USB/TF input, and FM radio function ,
- With Audio input
- With karaoke mic input
- Microphone volume/ echo ajustable. And speaker volume/ bass/ treble ajustable as well

### List of product

- Main Speaker----1 piece
- Wireless microphones 1 piece
- DC cable 1 piece
- adapter 1 piece
- Audio cable 1piece
- Remote control 1piece
- User manual 1 piece

## CONTROL PANEL INSTRUCTION:

1.Master volume	9.Previous songs/previous FM channel
2.Power switch	10.Pan/FM scan
3.USB card input	11.Next songs/next FM channel
4.MICRO SD	12.MODE transfer
5.AUX Audio input	13.EQ
6.DC 5V in	14.LED lights switch
7.MIC input	15.LED display
8.MIC volume	

## TROUBLE SHOOTING

SYMPTOM	CAUSE	REMEDY
The power can not be turned on	The built-in battery is low, and the power cord is not plugged in,or the power switch is set to OFF position	Plug the power cord into an AC outlet and/or set the main POWER to the ON position

CAUTION: READ THIS MANUAL BEFORE OPERATING YOUR UNIT

**FCC Caution:**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
