USB		 Get the most out of your Android TV™ with Google Assistant built in: Android TV™ provides a smarter viewing experience. Watch blockbuster movies, stream apps, and enjoy multiplayer games. And with the Google Assistant built in, you can do more faster. Ask it questions, discover the best content, control smart devices around your home—all with just your voice.	 Pairing guide Long press Back+Home button at the same time, until the red light flashes quickly, then release that means P2U, enter the pairing mode. Waiting for few seconds and stop pressing any buttons, until it pop up the message of pairing successfully.

Get the most out of your Android TV™ with Google Assistant built in:

Android TV™ provides a smarter viewing experience. Watch blockbuster movies, stream apps, and enjoy multiplayer games. And with the Google Assistant built in you can do more faster. Ask it questions, discover the best content, control smart devices around your home—all with just your voice.

A black Sling AirTV remote control. It features a blue button with the 'sling' logo at the top, followed by a row of three buttons: a play button, a pause button, and a stop button. Below these are 'mute' and 'power' buttons. The center has a directional pad with an 'OK' button in the middle. To the left of the pad is a 'back' button, and to the right is a 'recall' button. Below the pad are four buttons: a plus sign, a home button with a house icon, an 'info' button, and a 'Netflix' button with the red Netflix logo. At the very bottom is a 'home' button with a house icon. The 'AirTV' logo is printed at the bottom of the device.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- **Reorient or relocate** the receiving antenna.
- **Increase the separation** between the equipment and receiver.
- **Connect the equipment** into an outlet on a circuit different from that to which the receiver is connected.
- **Consult the dealer** or an experienced radio/TV technician for help.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna transmitter.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm from your body.
