Dialing

You can call from the Phone app, the Contacts app or other apps and widgets. Wherever you see a phone number, you can click it to make a call.

To make a call to one of your contacts:

1. Touch "📞" on home screen or in the apps drawer.
2. Choose or search out a contact.
3. Place a call to the contact.

For latest calls, please go to the recents list "🕒".

You can also input the phone number on the dial pad "📠" to make a call.

Message

To send a message:

1. Press "💬" on the home screen or app drawer.
2. Press "✉️" to write a new message.
3. Type contact name, phone number, or press "+👤" to add one or more contacts as message receivers.
4. Type text message.
5. Press "📎" to add pictures, videos, or audio files
6. Send message by pressing "➤".

Photography

To take a photo:

1. Open camera "📷".
2. Frame your picture.
3. Touch the shutter "📸" to take the picture.

*It's normal that some systematic texts are not translated to your language.

Safety Information

Please read this safety information carefully so that you can use your phone in complete safety

EN

1.Children : Be very careful with children and your phone. A mobile phone contains a number of detachable parts.

Exercise great care when children are in close proximity to the phone. The phone contains small parts that could be swallowed or cause choking. If your phone is equipped with a camera or lighting device, do not use it too near children or animals.

2.Hearing : Prolonged listening at full power using a lightweight headset or headphones can damage your hearing. Reduce the volume to the lowest possible level when listening to music or conversations. Avoid high volumes over extended periods.

3.Driving : Exercise care when driving. Driving requires maximum attention at all times in order to minimise the risk of accidents.

Using a mobile phone can distract the user and result in an accident. You must fully comply with the local regulations and laws in force regarding the use of cell phones whilst driving. You are not allowed to use the phone whilst driving. A hands-free kit should not be regarded as an alternative solution.

Flying : Turn your phone off when flying. Remember to turn your phone off when you are in a plane as it may cause interference.

4.Hospitals : Turn your phone off near any medical devices. It is extremely dangerous to leave a phone switched on near medical devices as it may cause interference. You must observe any instructions or warnings in hospitals and treatment centres. Remember to turn your phone off in service stations. Do not use your device in a petrol station near fuel. It is dangerous to use your phone inside a

there is a very real risk of electric shock.

12.Maintenance : If you want to clean your handset, use a dry cloth (do not use a solvent, such as benzene, or alcohol).

13.Recharge your phone in a well ventilated area. Do not recharge your device when it is resting on a soft surface.

14.Damage to magnetic strips : keep your phone away from credit cards as they may damage the data on the magnetic strips.

Disclaimer

1.The usage if non-original accessories such as headsets chargers etc., will cause incompatibility between the mobile phone and the accessories that may cause a degradation of performance and malfunction, and we are not responsible for any damage that might occur.

2.Specifications and functions of your mobile phone can be different from those contained in this user manual as the user manual only contains general overview.

3.Specifications and functions of your mobile phone have been confirmed to work properly since produced from the factory. If there is damage or defect due to the manufacturing not by misusing, it would follow terms and conditions in the warranty card.

4.If the functions of your mobile phone are related to features and services by carrier then those functions will follow the terms and conditions applicable by the carrier.

5.Please note that your mobile phone still has its limitations referring to the specifications and functions. These limitations cannot be considered as damage or defect or as manufacturer damage. Please use your mobile phone in accordance with the purposes and functions.

6.Any rugged phone damage caused by improper use including but not limited to improper sealing port covered or failure to follow the instructions is not covered by the warranty.

Regulatory Compliance Information

This device is used E-label, Regulatory Compliance information can obtain as follow step:

Settings → About phone → Regulatory label

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Statement

SAR tests are conducted using standard operating positions according standards with the device transmitting at its highest certified power level in all tested frequency bands, although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the maximum value.

This model product has been tested and meets the RF exposure guidelines with the test distance 0mm for head and 5mm for body worn. The highest SAR_{1g} value is 0.642 W/Kg for head and 0.662 W/Kg for body worn. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with RF exposure requirements, and should be avoided
