Board-Component View
2**

Solder Board-Component View 2	 A photograph of a small green printed circuit board (PCB) component, identified as 'Solder Board-Component View 2'. The component is rectangular and features various electronic components including resistors, capacitors, and a small integrated circuit. It is positioned next to a metal ruler for scale. The ruler shows centimeters from 1 to 10 and millimeters from 0.5 to 8. The background is a blue textured surface.
Solder Board-Component View 3	 A photograph of a larger green printed circuit board (PCB) component, identified as 'Solder Board-Component View 3'. The component is rectangular and features various electronic components including resistors, capacitors, and a small integrated circuit. It is positioned next to a metal ruler for scale. The ruler shows centimeters from 1 to 13 and millimeters from 0.5 to 13. The background is a blue textured surface.

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component with various electronic components soldered onto it. The component is placed on a blue textured surface. A metal ruler is positioned vertically to the left of the component, showing a scale from 1 to 13 cm. Another metal ruler is positioned horizontally below the component, showing a scale from 1 to 12 cm. The component has several circular pads and small electronic components.
Antenna View	Coil Antenna  A photograph of a circular antenna component. It features a central circular pad with a small red wire extending from it. Surrounding this pad is a series of concentric circular tracks. A yellow wire is wrapped around the outer edge of these tracks. The component is mounted on a metal base with four mounting holes. A red line points from the text "Coil Antenna" to the yellow wire.
