

## Antenna Information

| Item                      | Contents                                                           |
|---------------------------|--------------------------------------------------------------------|
| Antenna Type              | PCB Pattern Antenna                                                |
| Antenna peak gain         | 3.78 dB i                                                          |
| Manufacturer / Model name | FANLIGHT Co.,Ltd. / -                                              |
| Address of manufacturer   | 4F, 22, Nonhyeon-ro 128-gil, Gangnam-gu, Seoul, South Korea, 06105 |
| Test Laboratory           | KTM Technology Co., Ltd                                            |
| Antenna Length            | 2.1 cm                                                             |
| Antenna Width             | 0.5 cm                                                             |

Model name: SME-aespa-OFL02

2D Radiation Pattern

Model name: SME-aespa-OFL02
