

Wireless keyboard

ITEM: RWK-01
USER'S MANUAL

Thank you for purchasing the QUB Works 2.4GHz Wireless Keyboard & Mouse, item RWK-01. Included with your set is a USB Nano Receiver that can be stored inside the mouse itself, making it perfect for use with laptop computers and easy to carry when traveling. Please read this manual carefully FIRST in order to get the most out of your keyboard and mouse.

INSERTING BATTERIES

In order to operate your keyboard and mouse successfully, you will need to insert 2AAA batteries (not included) into the keyboard and 1AA battery into the mouse. To do so, follow the steps below:

1. Pull the battery compartment covers off of both the keyboard and mouse, revealing the battery compartment. The battery compartment covers are located on the bottom of the mouse and the bottom of the keyboard.

2. Insert 2AAA batteries into the keyboard's compartment and 1AA battery into the mouse, making sure to insert them with the correct polarity (+/-) as shown on the battery compartment.

3. Once your batteries are properly inserted, you can put the battery compartment covers back on the keyboard and mouse.

For best results, always use new alkaline batteries when powering your keyboard and mouse. Do not mix old and new batteries or different types of batteries.

KEYBOARD AND MOUSE SETUP

In order to connect your keyboard and mouse to your computer, follow the steps below:

1. Take the USB Nano Receiver from the bottom of your mouse.
2. Plug the USB Nano Receiver into an available USB port on your computer.
3. Make sure that both computer, keyboard and mouse are powered on.

FCC STATEMENT

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
