Safety precautions:

This product contains a built-in battery. It is not appropriate to expose the product to strong sunlight and fire sources. Do not place

the equipment in an environment where the temperature is too high(above 45 degrees Celsius) or too low(below 0 degrees Celsius). Because it can cause serious damage to the equipment.

Operation exception handling method:

(1) Due to improper operation or long-term blocking of the headphone signal, resulting in a headphone without sound, please try to move to the range of acceptable signals to restore normal.

(2) If the failure is caused by unknown reasons, the ear machine will be rebooted for use.

(3) If the replacement of a single product or misoperation causes the main and secondary headphones to be disconnected, the left and right headphones will be repaired.

(4) If the headset is connected to the mobile phone and the song is soundless, please turn to the Bluetooth setting of the mobile phone to find the name of the connected headset. If it is connected, click the headphone name again.

(5) If two headsets are paired and the phone is connected, the headset is not sound after answering the phone. You need to check the audio output of the phone. You must select the Bluetooth matching name corresponding to the headset before you can make a Bluetooth call.

NOTE:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Thank you for using this product. Enjoy your stay.
