

LONG TERM CONFIDENTIALITY REQUEST LETTER

Federal Communication Commission

MET Laboratories, Inc.
914 West Patapsco Avenue
Baltimore MD 21230

Subject: Request for Confidentiality for SleepTuner, FCC ID number 2APCY-SA01136

To whom it may concern:

Pursuant to the relevant provisions of the Commission's rules (47 CFR 0.4577, 0.459), Hancock Medical Inc. hereby requests confidential treatment for documents filed with the Commission in connection with the application for equipment authorization referenced above.

Permanent Confidentiality

Hancock Medical Inc. requests that the Commission withholds the following document from public viewing indefinitely:

- Block Diagrams
- Electrical Schematic Diagrams
- Technical Descriptions, Product Specification

These documents reveal detailed technical and design information that is protect by Hancock Medical Inc. as confidential and proprietary trade secrets. This information has been disclosed to those required to maintain it confidentiality and is not customarily disclosed to the public even after commercial release. As a result, disclosure of this information by the Commission would harm Hancock Medical Inc. by giving competitor an unfair advantage even after commercial release of the device.

Short Term Confidentiality

In addition to the above mentioned document, pursuant to Public Notice DA 04-1705 of the Commission's policy, in order to comply with the marketing regulations in 47 CR 2.803 and the importation rules in 47 CFR 2.1204, while ensuring that business sensitive information remains confidential until the actual marketing of newly authorized devices, Hancock Medical Inc. requests that the Commission withholds the following documents from public viewing for one hundred eighty days after the date the grant of equipment authorization is issued:

- External Photographs
- Internal Photographs
- Test Setup Photographs

- User Manual

These documents reveal detailed technical and design information that is protect by Hancock Medical Inc. as confidential and proprietary trade secrets. This information has been disclosed to those required to maintain it confidentiality and is not customarily disclosed to the public even after commercial release. As a result, disclosure of this information by the Commission would harm Hancock Medical Inc. by giving competitors an unfair market advantage. Hancock Medical Inc. believes the period of confidentiality requests is necessary to protect the information until the commercial release of a device.

It is our understanding that measurement test reports and FCC ID label format cannot be granted as confidential documents and this information will be available for public review once the grant of equipment authorization is issued.

Sincerely,

Thomas Goff
