
Appendix B. Test setup photos

Radiated test	Conducted test
 A photograph of a radiated test setup in an anechoic chamber. The chamber walls are covered in white foam panels. A white laptop is on a table in the foreground, connected to a test rig. A green circuit board is on the floor. A black and white checkered floor is visible.	 A photograph of a conducted test setup on a wooden table. A white laptop is connected to a device on the table. The background is a dark wall with electrical outlets.
 A photograph of the same radiated test setup as the first image, showing the white laptop on the table and the test rig in the background.	 A photograph of the conducted test setup, showing the white laptop on the wooden table with various cables and a small device connected to it.
 A photograph of the radiated test setup, showing a white concrete pedestal with a laptop on it. A black metal frame with a grid pattern is in the background. A black laptop is also visible on the floor.	N/A
