<p>7. Charging and pairing</p> <p>1: charge</p> <p>Follow these steps before using your bluetooth headset:</p> <p>1.Make sure your bluetooth headset is fully charged.</p> <p>2.Please match the bluetooth headset with bluetooth function.</p> <p>Before we try Bluetooth for the first time,we recommend charging the battery first.</p> <p>3.Please insert the plug of the bluetooth headset charging can,choose connect AC power car charger.USB cable can be connected to the PC, when charging, the red light is lit, finished.</p> <p>2: Pairing</p> <p>The first step:</p> <p>Long press the function button of the control box.Power on (don't let go for about 6-8 seconds) and then Pairing, blue light and red light flicker start bluetooth to searchstatus.</p> <p>The second step:</p> <p>Turn on the bluetooth setup, search and connect mocrox-5287, and the device connection is successful.If the pairing is successful, the next time you open the bluetooth device, it will memorize and automatically connect.</p>	<p>8. Warm tips</p> <p>When listening to music, don't exceed 60% of the volume, and don't listen for more than 60 minutes. People who listen to music regularly should have a "60-60 principle", which is internationally recognized as a way to protect hearing. When listening to music, the volume should not exceed 60% of the maximum volume, and the continuous listening time should not exceed 60 minutes. It is healthier to use ear in such a case.</p> <p>When connecting to any device, the default volume of the headset is 30 percent. The IOS phone can add the headset and phone volume to the loudest.Android mobile: can only add the headset to the full frame, unable to add the android mobile phone to the full frame.(android phone if the phone volume set to 8 frames, the loudest volume of the headset only be 8 frames of phone, when add phone volume to full frame, then headsets volume can adjust to the full frame of phone).</p>	<p>9. Maintenance</p> <p>Troubleshooting</p> <p>If you are unable to connect the headset to the bluetooth device, please try the following steps:</p> <ul style="list-style-type: none"> ★ Please confirm whether the bluetooth function of the device is opened, and confirm that the headset is paired with the device. ★ Please check whether the headset and equipment are more than 10 meters away, whether there are electronic products or power supply and other signal interference. ★ If the headset does not automatically connect or listen to music, please recharge or reconnect with the headset. 	<p>10. FCC ID and FCC Warnings</p> <p>FCC ID:2APL6-MOCROX-5287</p> <p>FCC Warnings:</p> <p>This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference that may cause undesired operation.Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p>NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and stores radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
