

Please keep the charger away from water or other liquids.

Do not place the charger too close to any magnetic stripe or clip card (ID card, bank cards, etc.) to avoid magnetic failure.

This item is not to be used on any mobile device with metal plates, as it will cause extreme heat that may burn and/or damage the device.

Fast charge via the plug and USB charging cable (both support QC2.0 or QC3.0).

Usually we recommend that the thickness of phone case should be within 4mm(0.012 inch).

The standard temperature of wireless charger Q1 is 55°C, but the temperature of our products should be controlled within 45°C. The charger will cut off current when abnormal heating occurs. Please contact us if any damage occurs.

We recommend that you turn off the power-consumption software before charging to effectively prevent the phone from overheating. When the temperature exceeds 45°C during charging, it is normal for the charging speed to slow down.

Für die schnelle und sichere Ladung mit einer Quick Charge 2.0 oder 3.0 Wall Ladegerät wird dringend empfohlen. Andere Ladegeräte funktionieren möglicherweise nicht gut mit diesem Gerät.

- Si prega di tenere il caricabatterie lontano da acqua o altri liquidi.
- Non posizionare il caricatore troppo vicino a nessuna banda magnetica o scheda a clip/carta d'identità, carta di credito, ecc.) per evitare guasti magnetici.
- Questo articolo non deve essere utilizzato su alcun dispositivo mobile con piastre metalliche, in quanto potrebbe causare un calore estremo che potrebbe bruciare o danneggiare il dispositivo.
- Carica rapida tramite spina e cavo di ricarica USB(Entrambi supportano QC2.0/QC 3.0).
- Raccomandiamo solitamente che lo spessore della custodia del telefono dovrebbe essere entro 4 millimetri (0,12 pollici).
- La temperatura standard del caricabatterie wireless Qi è 55°C, ma la temperatura dei nostri prodotti deve essere controllata entro 45°C. Il caricabatterie interrompe la corrente quando si verifica un riscaldamento anormale. Vi preghiamo di contattarci se vi verificano i danni.
- Si consiglia di spegnere il software di consumo energetico prima della ricarica per impedire eccessivamente il surriscaldamento del telefono. Quando la temperatura supera 45°C, quando la carica è normale che la velocità di ricarica rallenti.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the users authority to operate the equipment.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

1) This device may not cause harmful interference, and

2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20 between the radiator &you body.

SEDC RSS warning

This device complies with Innovation, Science and Economic Development Canada Compliance licence-exempt RSS standard (s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference,including interference that may cause undesired operation of the device.
