

Multifunction Wireless Charger

Product Instruction Manual

Products

This product is a multifunctional wireless charger, featuring a smart chip that supports simultaneous charging for three devices: mobile phones, smart watches, and earphones. It boasts an interesting hidden design for watch charging, and a magnetic suction that automatically rotates the phone charging position, serving as a phone holder. With its high efficiency, stable performance, and instant charging capabilities, you can easily enjoy the convenience of wireless charging technology. Additionally, it supports wireless charging for other electronic devices that comply with the Qi standard.

Product Functions

Button Function

-  Mobile phone charger rotary button: Touch this button to rotate the phone charging area counterclockwise by 90 degrees; Touch this button again to rotate clockwise 90° and return to the original position.
-  Show button: Touch this button to slowly extend the watch charging stand; Touch this button again, will slowly contract and hide.

Power Indicator Light

Plugged into the power supply, the light comes on and goes out after one minute; when the phone is charging, the light comes on and goes out after one minute.

Product Parameters

Model: T3	Size: 205*98*75mm
Input: QC/PO 9V~3A	Weight: 362g
Output: 5W/7.5W/10W/15W (Smart Phone)	Materials: ABS+PC
Output: 5W (Earbuds)	Charging Distance: 3-6mm
Output: 2.5W (Smart Watch)	Operating Frequency: 115~205kHz(Phone/Earbuds)
FCC ID: 2APQD-T3	Operating Frequency: 300~350kHz(Watch)

FAQ and Solution

1. Is the phone not charging?
The phone is not aligned with the sensing area or the receiving coil is not installed correctly.
2. Charging is hot?
It is normal for the receiving coil or transmitter board to become warm during wireless charging.
3. Cell phone charging intermittent?
A. The charging current of the adapter is not enough or the voltage is unstable, please use QC3.0 fast charging head to charge.
B. The charging position is too partial, electromagnetic induction is not good, you can adjust the charging position.
4. Charging is slow?
The phone itself or the external receiving coil allows different sizes of wireless charging current, or the standby power consumption is large when the phone is charging, it is recommended to reduce the standby program of the phone.

Cautions

1. Please do not pull the power cord strongly to avoid the power cord breakage or fall off.
2. Do not disassemble or put into fire or water to avoid short circuit and leakage.
3. Do not use the product in severe heat, humidity or corrosive environment to avoid damage to the circuit leakage.
4. Please do not give children to play to avoid unnecessary accidents
5. When using fast charging, please use qualified QC3.0 charging power adapter and fast charging cable, otherwise it may cause charging instability.
6. Please do not put metal debris or magnetic cards on the charging board, which may cause damage or abnormalities to the charger.
7. If you encounter the receiving coil or transmitting board overheating during use, resulting in stopping charging, please remove the charging product, wait for it to cool down, and then try charging again..

Compatibility

1. Smart Phone
For iPhone16, iPhone16 Pro, iPhone16 Pro Max, 16 Plus
iPhone15, iPhone15 Pro, iPhone15 Pro Max, 15 Plus
iPhone 14, iPhone 14 Pro, iPhone 14 Pro Max, iPhone 14 Plus
iPhone 13, iPhone 13 Pro, iPhone 13 Pro Max, iPhone 13 mini
iPhone 12, iPhone 12 Pro, iPhone 12 Pro Max, iPhone 12 mini
iPhone SE (2 Generation)
(Note: Magnetic charging of cell phones is only applicable to iPhone 12/13/14/15/16 series)
2. Smart Watch
For Apple Watch Ultra / Ultra2 / SE / 10 / 9 / 8 / 7 / 6 / 5 / 4 / 3 / 2 Series
For Galaxy Watch 2(40mm) / Galaxy Watch 3(45mm) / Galaxy Watch 4(40/41/44/46mm) / Galaxy Watch 5(44mm) / Galaxy Watch 6(40/44mm) / Galaxy Watch 6 Classic(47mm) / Galaxy Watch 7 Ultra(47mm) / Galaxy Watch FE(40mm) / Galaxy Watch Active(40mm)
(Note: Apple Watch and Galaxy Watch have compatibility differences in certain system environments. Specifically, in some systems, the two may not be compatible with each other, while in other systems, they can be compatible. For detailed compatibility information and technical support, please consult official customer service.)
3. Earbuds
For AirPods 2 (with wireless case) / AirPods pro / AirPods pro2 / AirPods 3 / AirPods 4 (can work with A3059, A2968, A2700, A2566, A2190, A1938 AirPods case; Does not support AirPods charging case: A3058, A2897, A1602); Samsung Galaxy Buds, Buds+, Buds Pro, Buds Live; Soundcore Liberty Air 2, Air 2 Pro, 2 Pro
(All TWS earphones with wireless charging)

Note: Adapt to all devices that support wireless charging

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:
The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
