

Multifunction Wireless Charger

Product Instruction Manual

Products

This product is a multi-functional wireless charger with a built-in smart chip, supporting simultaneous charging for three devices: a phone, smartwatch, and earbuds. It features an innovative hidden design for watch & earbuds charging, includes a built-in night light to brighten your life, and has a magnetic auto-rotating phone charging position that doubles as a phone stand. With its efficient, stable performance and instant charging capability, you can effortlessly enjoy the convenience of wireless charging technology. Additionally, it supports wireless charging for other Qi-compatible electronic devices.

Product Functions

Button Function

Show button: Touch this button to slowly extend the watch and earphone charger; Touch this button again, they will slowly shrink to hide.

Night light switch: Tap to turn on; 6 lighting modes available for different needs.

Nightlight

It features Six adjustable lighting modes to choose from, allowing you to select the most suitable lighting based on your needs.

Product Parameters

Model: T5

Input: QC/PD 9V-3.5A

Output: 5W/7.5W/10W/15W(Smart Phone)

Output: 5W(Earbuds)

Output: 2.5W(Smart Watch)

Size: 105*105*96mm

Weight: 388g

Materials: ABS+PC

Charging Distance: 3-6mm

FCC ID: 2APQD-T5

FAQ and Solution

1. Is the phone not charging?

The phone is not aligned with the sensing area or the receiving coil is not installed correctly.

2. Charging is hot?

It is normal for the receiving coil or transmitter board to become warm during wireless charging.

3. Cell phone charging intermittent?

A. The charging current of the adapter is not enough or the voltage is unstable, please use QC3.0 fast charging head to charge.

B. The charging position is too partial, electromagnetic induction is not good, you can adjust the charging position.

4. Charging is slow?

The phone itself or the external receiving coil allows different sizes of wireless charging current, or the standby power consumption is large when the phone is charging, it is recommended to reduce the standby program of the phone.

Cautions

1. Please do not pull the power cord strongly to avoid the power cord breakage or fall off.
2. Do not disassemble or put into fire or water to avoid short circuit and leakage.
3. Do not use the product in severe heat, humidity or corrosive environment to avoid damage to the circuit leakage.
4. Please do not give children to play to avoid unnecessary accidents
5. When using fast charging, please use qualified QC3.0 charging power adapter and fast charging cable, otherwise it may cause charging instability.
6. Please do not put metal debris or magnetic cards on the charging board, which may cause damage or abnormalities to the charger.
7. If you encounter the receiving coil or transmitting board overheating during use, resulting in stopping charging, please remove the charging product, wait for it to cool down, and then try charging again.

Compatibility

1. Smart Phone

For iPhone16, iPhone16 Pro, iPhone16 Pro Max, 16 Plus

iPhone15, iPhone15 Pro, iPhone15 Pro Max, 15 Plus

iPhone 14, iPhone 14 Pro, iPhone 14 Pro Max, iPhone 14 Plus

iPhone 13, iPhone 13 Pro, iPhone 13 Pro Max, iPhone 13 mini

iPhone 12, iPhone 12 Pro, iPhone 12 Pro Max, iPhone 12 mini

iPhone SE (2 Generation)

(Note: Magnetic charging of cell phones is only applicable to iPhone 12/13/14/15/16 series)

2. Smart Watch

For Apple Watch Ultra / Ultra2 / SE / 10 / 9 / 8 / 7 / 6 / 5 / 4 / 3 / 2 Series

For Galaxy Watch 2(40mm) / Galaxy Watch 3(45mm) / Galaxy Watch 4(40/41/44/46mm)

/ Galaxy Watch 5(44mm) / Galaxy Watch 6(40/44mm) / Galaxy Watch 6 Classic(47mm)

/ Galaxy Watch 7 Ultra(47mm) / Galaxy Watch FE(40mm) / Galaxy Watch Active(40mm)

(Note: Apple Watch and Galaxy Watch have compatibility differences in certain system environments. Specifically, in some systems, the two may not be compatible with each other, while in other systems, they can be compatible. For detailed compatibility information and technical support, please consult official customer service.)

3. Earbuds

For AirPods 2 (with wireless case) / AirPods pro / AirPods pro2 / AirPods 3 / AirPods 4 (can work with A3059, A2968, A2700, A2566, A2190, A1938 AirPods case; Does not support AirPods charging case: A3058, A2897, A1602); Samsung Galaxy Buds, Buds+, Buds Pro, Buds Live; Soundcore

Liberty Air 2, Air 2 Pro, 2 Pro

(All TWS earphones with wireless charging)

Note: Adapt to all devices that support wireless charging

Warranty Coverage

Products in the normal use of the process can not work normally or normal use of the failure, and after my company identified can enjoy my company's after-sales service commitment. The following are not covered under warranty:

1. Accessories are not warranted;

2. Failure due to improper operation by the user;

3. Failure caused by accidental disasters, human damage, self disassembly, random disassembly, etc.

Note: We are not responsible for any damage to the mobile device or even danger caused by improper operation by the user.

4. Overdue maintenance (the product exceeds the six-month warranty period, the customer still enjoys maintenance services, but need to pay the maintenance labor costs, material costs, etc.)

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different

from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
