Wireless Charger

180001

Product Introduction

Wireless charger is an intelligent product, with simple design and compatible with any mobile phones. Smart phone is without plug when charging, which is more convenient and efficient. It can bring you with limitless life experience as well as safe and free experience with wireless charging function.

Standard Accessories

- Wireless Charger
- USB Cable
- User Manual

Product Outline

- ① Micro USB Charging Port
- ② LED Indicator Light
- ③ Non-Slip Silicone
- ④ Charging Area
- ⑤ Phone Stand Base Part
- ⑥ Phone Stand Charging Function

Product Specification

Input: 5V/2A

Output: 5V/1A

Charging Distance: $\leq 5\text{mm}$

Charging Efficiency: $\geq 76\%$

Size: 85X85mm

Protection (Non-Voltage-Output):

Undervoltage: $< 4.2\text{V}$

Overvoltage: $> 7.5\text{V}$

Applicable Devices

- Devices with built-in wireless charging receiver
- Devices with reserved wireless charging interface beside it battery
- Devices with wireless charging receiver in its protection case

Instructions

1. Insert one end of USB charging cable into power adaptor or computer.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions,

may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

FCC ID: 2APR2-180001(You can access the FCC ID information when you open the phone stand base part)
