**1** Turn off the modem, and remove the battery if it has one.

**3** Turn on the modem and then wait about 2 minutes for it to restart.

**2** Connect Cudy's **WAN** port to your ISP modem.

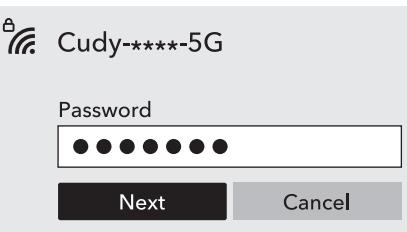

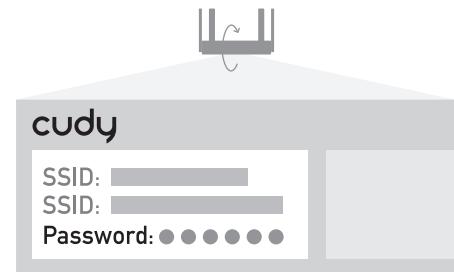

**4** Connect the power adapter to the router and wait for the "System" LED indicator light to turn solid on.

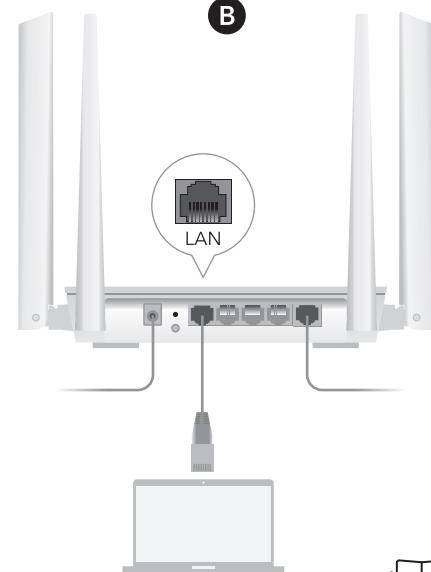

**5** Connect the router via **A** or **B** method.

**A**

**A Wi-Fi:** Connect your device to the router's Wi-Fi using the SSID (network name) and Password printed on the bottom of the router.

**B** **Wired:** Turn off the Wi-Fi on your computer and connect it to the router's **LAN** port via an Ethernet cable.

**B**

Go to step **6** and continue.
