Major Functions

1. By using the **Apple Find My** app, you can find your F2 Tag from your iPhone, iPad, iPod touch, or Mac. Simply open the **Apple Find My** app, click on the corresponding item, and you will see the location of the Tag item finder. Use the map guide to find it.
2. Even if it is left in a place far away from you, you can also enable the lost mode to lock the location of the item and use the map guide to find it since Apple device are widely used.
3. In addition, if your F2 Tag item finder leaves the range of your Apple device, you will receive an alarm notification. This can help you timely discover the lost items and avoid further losses.

Turn On/Off

1. Turn On:

Press and hold the button of F2 Tag item finder for 3 seconds, item finder makes a sound of "Di Di Di".

2. Turn Off

Press and hold the button of F2 Tag item finder for exactly 3 seconds, and it will play the confirmation sound "Di Di".

3. Reset

Click the button 5 times in a row, when the 5th time is pressed, don't release the button, and keep pressing the button for 3 seconds at least, a beeping "Di Dididididi" will be played by buzzer. Release the button after confirming the sound effect (the above operation needs to be completed within 5 seconds).

4. Battery Replacement

Click the button 5 times in a row, when the 5th time is pressed, don't release the button, and keep pressing the button for 3 seconds at least, a beeping "Di Dididididi" will be played by buzzer. Release the button after confirming the sound effect (the above operation needs to be completed within 5 seconds).

How to Connect

① Turn on the item

Find My

② Open "Find My" App

Privacy Data Protection

1. Personal location information protection: The Apple Find My network uses advanced encryption to ensure that no one else, not even Apple or Shenzhen Winnershine Electronics Co., Ltd., can view the location of your weTag.

2. Prevent Anonymous Tracking: How to prevent the device from being maliciously tracked? When someone else's item finder is mixed into your belongings and tracked for a period, you will be prompted in the following two ways. If you have iPhone, iPad and other Apple device, you will get reminders on Apple device, this function is supported on iOS14.5 or iPadOS14.5 and later versions of Apple devices. If you do not have Apple devices, when someone else's item finder is mixed into your belongings and tracked over a period, when it moves, it will emit a beep to remind you. If it happens that your friend is wearing a item finder, or there are many people on this device in the public transportation you take, don't worry, because if the item finder does not leave its owner's side, it will not trigger such a warning reminder.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements.

The device can be used in portable exposure condition without restriction.
