Open the app, click on the item, and use the map to help guide you to your item.
2. You can set your Trakard to"Lost Mode" to make the device discoverable by others to help you recover your item.
3.Your Apple Device will receive a notification if your Trakard leaves its range.

Privacy Data Protection 5

1. Personal location information protection: The Apple Find My network uses advanced encrypt on to ensure that no one else,not even Apple or Shenzhen Winnershine Electronics Co., Ltd,can view the location of your Rupt Trakard.

2. Prevent Anonymous Tracking: How to prevent the device frombeing maliciously tracked? When someone else's item finder is mixed into your belongings and tracked for a period, you will be prompted in the following two ways. If you have iPhone, iPad and other Apple device, you will get reminders on Apple device, this function is supported on iOS14.5 or iPadOS14.5 and later versions of Apple devices. If you do not have Apple devices, when someone else's item finder is mixed into your belongings and tracked over a period, when it moves, it will emit a beep to remind you. If it happens that your friend is wearing a item finder, or there are many people on this device in the public transportation you take,don't worry, because if the item finder does not leave its owner's side, it will not trigger such a warning reminder.
