Dear Sir or Madam:

The RF chip, model MDM9207, installed in our product:4G Mobile Mifi, FCC ID: 2APSOL519S, which supports LTE, 2G/3G /2.4g wifi function. For use in the US market, this chip will support LTE band 41 and 2.4g wifi , not support/enable other 2G/3G / LTE bands. The other 2G/3G / LTE bands have been shielded by the manufacturer by using the software.

Sincerely,

Signature: *Jin Xiao*
