SM-619 Smart Duck Dabble Speaker

Tips: Please carefully read the user manual before use

Features:

Wireless speaker with 360 degree all-around waterproof. Suitable for use in the bathroom or a pool. Cool design makes enjoying music even more fun!

Description:

- 1: "Mode" Key
- 2: Micro-USB

Charging Description:

- 1: Fully charge before first use.
- 2: Open the silicone cap, use the Micro-USB to charge the speaker, the red light will be on during charging. Once fully charge, the red light off.
- 3: When speaker is fully charged, close the silicone cap tightly before use.

User manual:

- 1: Long press "MODE" key to turn on the speaker and there will be a beep. Then, it will begin Bluetooth pairing mode. Blue indicator light should start to flash, then open the Bluetooth setting in your phone. Connect to the name "D&B Speaker", the blue indicator stays on once successfully connected. Speaker will automatically turn off if 60 seconds with no pairing, it will beep again.
- 2: While playing, short press "MODE" to pause music/play music. Other functions (i.e. volume or track selection) must be executed from your device.

Specification:

Output power: 2W
Signal-to-noise ratio: $\geq 80\text{dB}$
Frequency response: 150Hz-20KHz
Weight: 150g
Dimensions: L100*W120*H95(mm)
Battery type: 280mAh
Operation range: 10M
Input voltage: DC5V
Waterproof Level: IPX7
Patent No.: ZL 201730101151.0

Warning:

CHOKING HAZARD-Small parts. Not for children under 3 years.
Keep Fire Away
Never leave children unattended when the product is in use due to potential drowning hazard.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
