### Battery Cautions:

1. The product is powered by a rechargeable battery. The new battery performs better after two or three cycles of full charge and discharge. The battery can be recharged and discharged, but it will wear out.
2. Do not store it in overheated or cold places that may reduce battery capacity and life span. It is recommended to store it in 15°C to 25°C environment. It may not work in extreme cold or hot environments even if it is fully charged.
3. Do not throw it into the fire to prevent exploding. A damaged battery may explode. Please follow the local regulations to handle the battery. Please recycle the battery as far as possible.
4. Please stop using it if there is a severe bulging. Do not use it after it is soaked.

### Tips:

Please regularly recharge and discharge it every three months when unused for a long time. Improper battery replacement may cause an explosion, it is only can be replaced with the same type or equivalent type of battery.

### 100% Satisfaction Warranty

FFZ kids headphone is covered by 12 month warranties from the date of its original purchase. If the device fails due to manufacturer defects, please contact us by email and we will make things right for you!

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
