Binding Voice Assistants Guide	x 1

Specification

Input: 110-240V~, 10A Max.
Output: 10A
AC Frequency: 50/60Hz
Wi-Fi Frequency: 2.4GHz
Maximum Power Output: 1200W/120V

How to Pair with the Our App

1. Open the APP and create your account.
2. Turn on the plug and put it close to the router when pairing.
3. Press and hold the ON/OFF button for 5 seconds and release it when the plug starts blinking fast to enter the network pairing mode.

How to Download the Gosund App

Option 1: Search for "Gosund" in the Apple APP Store or Google Play.

Option 2: Scan the QR code to enter the download page.

Warnings and Precautions

Important!

- ♦ Keep it out of the reach of children and pets.
- ♦ Do not cover the product when in use.
- ♦ Do not use this product in humid environments or outdoors.
- ♦ Do not place this product near heating devices, such as microwave ovens, or radiators.
- ♦ Note: The image shown in the manual is indicative only. If there is inconsistency between the image and the actual product, the actual product shall govern.
- ♦ Protect the product from extreme temperatures, direct sunlight, strong winds, high humidity, moisture, flammable gases, vapors and solvents.
- ♦ Do not disassemble, modify, or repair your device. Please ask help from the authorized professionals for device malfunction.
- ♦ Do not use the device when it is no longer working properly or visibly damaged.
- ♦ Do not store the device for extended periods in poor ambient conditions.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rule. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operations is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device and its antenna(s) must not be located or operating in conjunction with any other antenna or transmitter.
