

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

MATCH YOUR PHONE OR OTHER DEVICES

Firstly, you must pair your earphones with your cellphone or computer. If the earphones is paired with a cellphone, the phone and earphones are automatically paired in the effective distance. If you are using a computer, you only need to select an audio connection.

PAIRED AND USED WITH MOBILE PHONES

- Turn on the phone and make sure the bluetooth is enabled.
- Wireless erabuds boot into match.
- Follow the instructions on the phone to find the bluetooth device.
- The device displays the bluetooth device "EB03" on the phone and selects the device.
- When the matching code is displayed on the phone, please enter "0000" as the matching code.
- The phone prompts you to confirm this pairing, please press OK or YES.
- The phone is connected to a wireless erabuds, so you can turn on your audio devices to play music, watch movies, and play games. All sounds come from a bluetooth speaker. Of course, you can also control the volume tracking by pressing the control buttons.

MATCH AND USE THE COMPUTER

- Wireless erabuds boot into matching mode.
- Open the bluetooth control software on your computer or the software that comes with the operating system, such as the IVT software to search for the bluetooth device menu.
- After searching for the wireless erabuds, the wireless erabuds name "EB03" will appear in the list of devices to be explored. Select this device, click the right mouse button, select "match this device" option.
- Finally, turn on your computer's media player or play music, or watch a movie, or play a game, and the wireless erabuds is a headset.

CHARGE THE EARPHONES

- The earphones use the micro USB for charging. This product provides the charging cable which requires the adapter with a 5VDC output .Makesure you charge your headset for at least six hours at the first time, the LED indicates on red when charging andturns green when full charged.

SAFETY RULES
