功能	操作	备注																																																		
开/关机	长按“开/关机键”1.5秒																																																			
亮/灭屏	开机状态下单击“开/关机键”																																																			
屏幕旋转180°	单击“屏幕旋转键”																																																			
亮度调节	单击“亮度调节键”	三挡亮度可调，循环操作																																																		
反向充电	“传输接口”可以给其他设备充电																																																			
低电提示	LED灯闪烁																																																			
无线投屏	使用Wi-Fi连接																																																			
有线投屏	使用数据线连接“传输接口”																																																			
充电	使用数据线插入“充电接口”，LED灯提示状态																																																			
1.无线投屏	2.有线投屏（低延时）																																																			
1.1 Android系统	2.1 Android系统																																																			
1.1.1 打开手机投屏功能	2.1.1 使用手机扫描显示器对应二维码（微信/拍照）																																																			
1.1.2 连接投屏搜索到的对应名称，连上后即可投屏	2.1.2 下载安装APP																																																			
1.2 iOS系统	2.2 iOS系统																																																			
1.2.1 打开Wi-Fi设置	2.2.1 连接数据线后，即可投屏																																																			
1.2.2 连接HS16，密码：12345678（显示屏上有对应显示）	2.2.2 连接数据线后，即可投屏																																																			
1.2.3 点击想像投屏功能，即可投屏																																																				

	<h2>HS16</h2> <p>Vlog selfie Screen User Manual</p>	<h3>Features</h3> 	<h3>Package List</h3> 	<h3>Feature introduction</h3> <table border="1"><thead><tr><th>Functions</th><th>Operations</th><th>Note</th></tr></thead><tbody><tr><td>Power On/Off</td><td>Press and hold the "Power Button" for 5 seconds.</td><td></td></tr><tr><td>Screen On/Off</td><td>Press the "Power Button" once when the device is powered on.</td><td></td></tr><tr><td>180° Screen Rotation</td><td>Press the "Screen Rotation Button" once.</td><td></td></tr><tr><td>Brightness Adjustment</td><td>Press the "Brightness Adjustment Button" once.</td><td>Brightness adjustable in three levels, operating in a cycle.</td></tr><tr><td>Reverse Charging</td><td>The "Transmission Port" can be used to charge other devices.</td><td></td></tr><tr><td>Low Battery Warning</td><td>The LED light flashes.</td><td></td></tr><tr><td>Wireless Screen Mirroring</td><td>Connect Via Wi-Fi.</td><td></td></tr><tr><td>Wired Screen Mirroring</td><td>Connect the "Transmission Port" by a data cable.</td><td></td></tr><tr><td>Charging</td><td>Insert the data cable into the "charging port" and check the status via the LED indicator light.</td><td></td></tr></tbody></table>	Functions	Operations	Note	Power On/Off	Press and hold the "Power Button" for 5 seconds.		Screen On/Off	Press the "Power Button" once when the device is powered on.		180° Screen Rotation	Press the "Screen Rotation Button" once. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction

against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
