

VACUUM Bottle with TWS

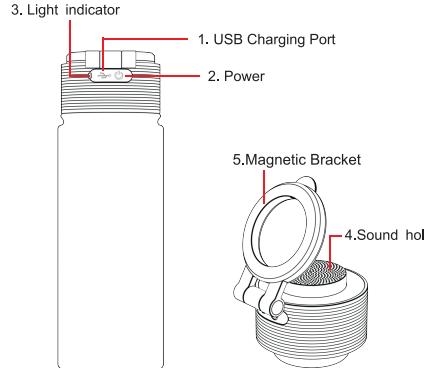

Model Number: T29
User Manual

Product Parameters

Bluetooth name: T29
Input: DC 5V/1A
Distance: 10m
Audio output power: 3W
Battery: 3.7V/300mah
Charging time: around 2 hours
Working time: 2-3 hours
At room temperature, 100°C water will be about 55°C after 13 hours.

Main function instruction

Function Instruction

Long press Power button to turn on the speaker, the blue light will flash with sound "Bluetooth mode"; When the device is connected successfully, it will hear sound "paired".

*The red light will be on when charging, and the light will be off when fully charged.

*It will remind "Low battery, pls charge" sound when the speaker is out of power.

*The device will be off automatically if it's out of connection for 5 minutes.

Attention

- Do not wash the inside of the charging box during use. The surface of the charging box can only be quickly washed with a small amount of water or wiped with a wet towel.
- Minors should be used under the guidance of an adult.
- Wash the cup with warm water before use.
- In order to achieve the best heat or cold preservation effect, it is recommended to add hot water or ice first to be preheated or pre-cooled.

- Tighten the lid clockwise when the cup is tilted to prevent leakage.
- When adding boiling water to the cup, it should not be too full and there is a danger of spilling and scalding.
- Avoid falling, bumping or strong impact, which will cause deformation of the cup and affect the product use efficacy.
- Avoid any form of direct heating or place at high temperatures. It is strictly forbidden to place the product in Heating in open flames, induction cookers, microwave ovens, and dishwashers.
- Do not add dry ice, carbonated drinks, etc., which are prone to high pressure, do not add soy sauce, soup and other liquids containing alkaline and acidic ingredients to avoid cup corrosion.
- After loading a perishable beverage such as milk, please drink it as soon as possible and wash it to avoid the liner decay. Do not use it for other purposes except heat preservation and cold preservation.
- When not in use for a long time, clean it and keep it dry.
- Please charge in a safe environment. When charging the charging box, please pull out the charging cable as soon as possible after the charging indicator indicates full charge, so as to avoid damage to the charging box caused by long time of charging.

Tips: when you use it for the first time, please connect the attached data cable to the power adapter to charge for 1-2 hours to achieve the best effect of the built-in battery.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
