

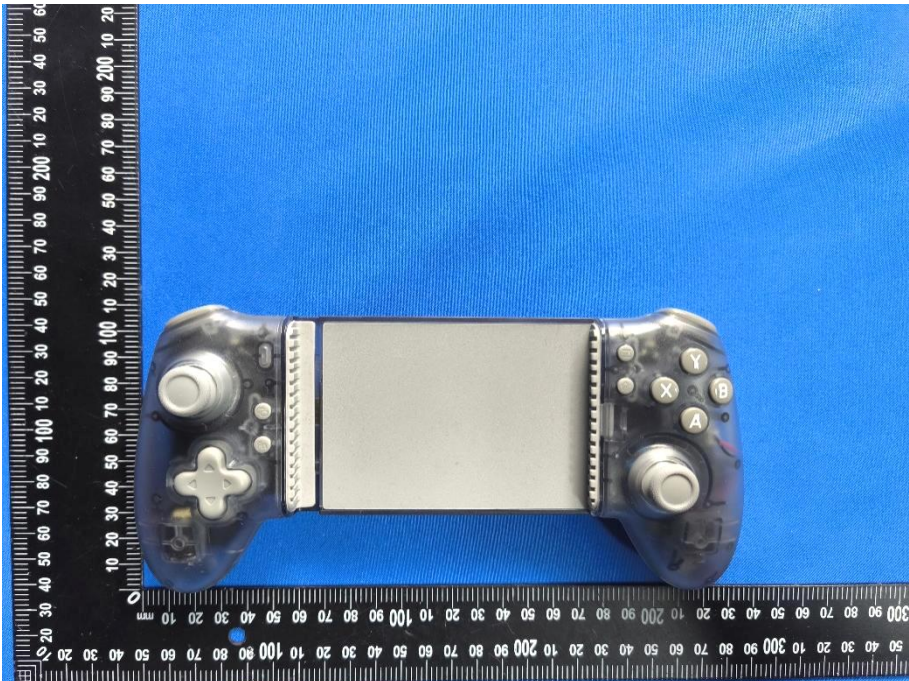

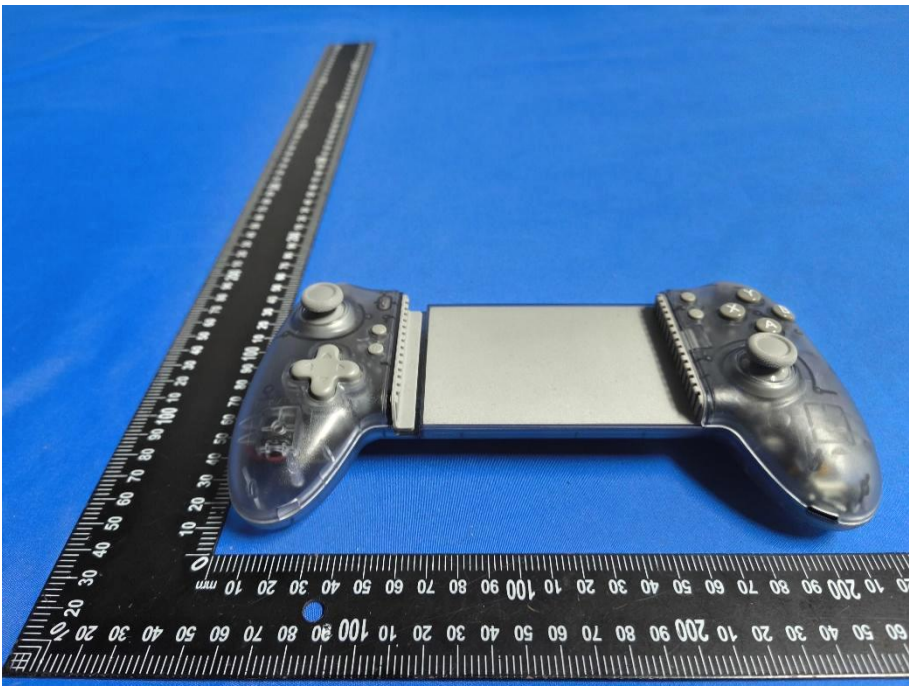

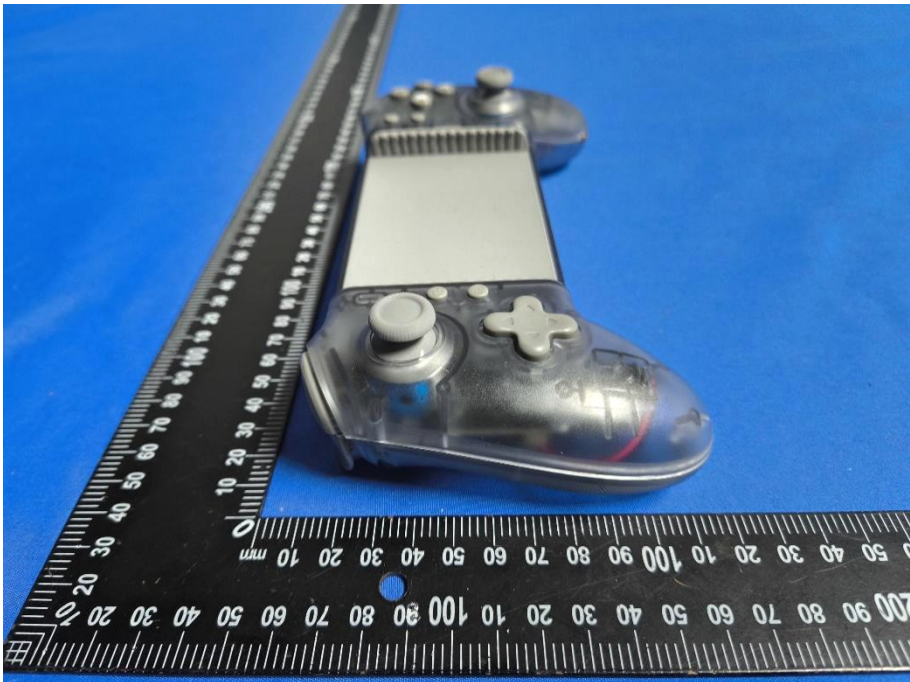

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

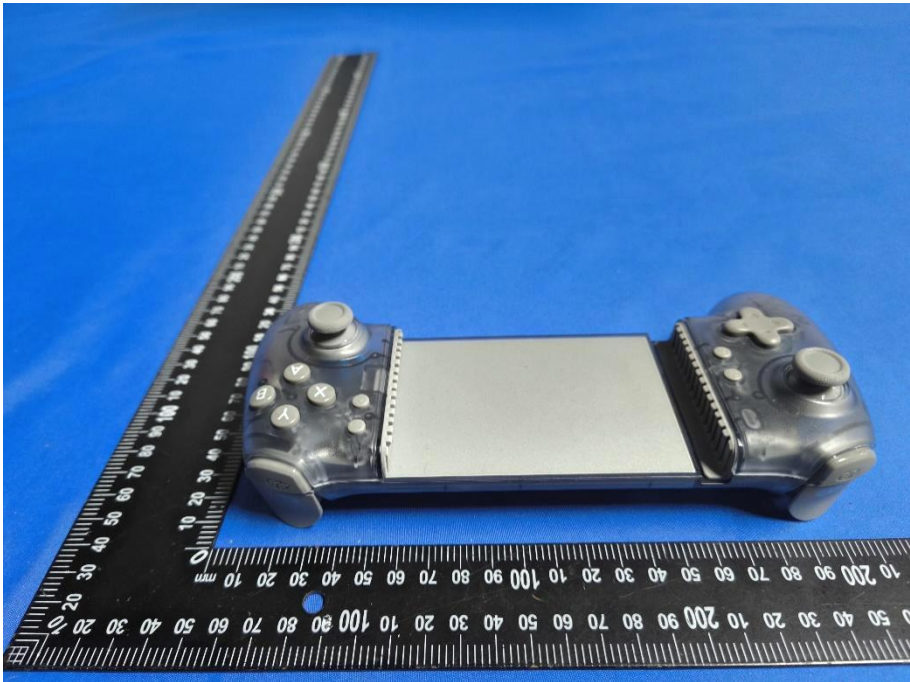

EUT View 1	
EUT View 2	

EUT View 3	 A photograph showing the back of a transparent game controller. The controller is positioned horizontally on a blue surface. A black ruler with white markings is placed vertically to the left of the controller, showing measurements in centimeters and millimeters. The controller's internal components, including a battery and circuitry, are visible through the transparent casing. The controller has two analog sticks and several buttons on the back.
EUT View 4	 A photograph showing the front of a transparent game controller. The controller is positioned horizontally on a blue surface. A black ruler with white markings is placed vertically to the left of the controller, showing measurements in centimeters and millimeters. The controller's front face is visible, showing two analog sticks, a directional pad, and several buttons. The transparent casing allows the internal components to be seen.

EUT View 5

EUT View 6

EUT View 7	 A handheld gaming device, possibly a Nintendo Switch Lite, is shown from a top-down perspective. It is black with silver accents on the buttons and joysticks. A black ruler with white markings is placed horizontally below the device to provide a sense of scale. The device is resting on a blue surface.
EUT View 8	 A close-up view of the bottom of the handheld gaming device. It shows the silver-colored metal casing and a small, rectangular port, likely a USB-C port, located near the bottom edge. The device is resting on a blue surface.
