FEDERAL COMMUNICATIONS COMMISSION
INTERFERENCE STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment on and off. If you are having difficulty to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION:

Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF exposure warning

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 15 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End users and installers must be provide with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.

正面

CHARGING

Place your smart phone vertically on the stand, the LED indicator will be in breathing mode during charging.

ILLUMINATED NIGHT LIGHT

Place your hand in front of the LED light(within 10cm distance) for 0.5 sec to activate the ON/OFF IR sensor switch of the back light(When the illumination is activated, the IR sensor will be disable for 3 sec before you can turn it off)

Avoid placing metal objects on the charging stand.
