FCC Laboratory
7435 Oakland Mills Rd
Columbia MD 21046

SUBJECT: Class II Permissive Change for FCC ID: 2AQ68T99W175-L2

The product has been granted by FCC dated 12/9/2021 under FCC ID: 2AQ68T99W175-L2. The intention of this application is to enable the modular granted under FCC ID: 2AQ68T99W175-L2 to be integrated in Lenovo Notebook Computer, **TP00123B**. Sub-6 Band n77(3450-3550MHz), Sub-6 Band n78, Sub-6 Band n41 (HUPE), ENDC combination (n2+LTE B30/48/66; n5+ LTE B12; n41+ LTE B41; n66+ LTE B30) operations are disabled by software when integrating in the above referenced host.

The module installed into host platform mentioned above is electronically and mechanically identical to the original certified module. The Original FCC testing on module under FCC ID: 2AQ68T99W175-L2 was performed with an antenna of higher gain, and the antenna was connected to the module in an open environment. The current host platform under application uses an antenna with lower gain and is installed inside the host platform enclosure. The physical restraints introduced by the host platform should have resulted in equal or lower level of radiated emission. Therefore, additional Radiated emission testing is not necessary.
