V1.2	FCC & IC added on PCB

2 XM126 Label Declaration

The XM126 IoT module has a circular form factor with a diameter of 33mm. FCC ID and IC placed on the module PCB frontside, with 4pt large characters (1.4mm height).

FCC ID and IC is placed in the User Manual (chapter 7), see separate document.

FCC ID and IC placed on the device packaging, see following picture of the packaging artwork with correct markings:
