

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure: The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This device should be installed and operated with minimum distance of 20cm.

IC Notice: This device complies with Canada Industry licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference; and (2) this device must accept any interference. Including interference that may cause undesired operation of the device.

Radiation Exposure Statement: This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body.

WIRELESS CHARGER

In the box:
wireless charger, 1m USB-C
charging cable, user manual.

Feature: Qi standard transmitter, WPC 1.2

Certifications: FCC ID: 2AQ93-WP08A01

Accessories: USB-C cable 1m (black)

Input: DC5V/2A, 9V/1.67A

Output: DC5V/1A, 9V/1A

- max 10W fast charge for Qi compatible devices
- max 7.5W fast charge for iOS compatible devices
- max 5W for other devices

Wireless charging Works with Qi-compatible devices.

This wireless charging pad was produced according to the Qi standard. Please use it with Qi-friendly phones. If your phone is not Qi-compatible, you should use a Qi-receiver (not included)

SAFETY INFORMATION

1. Do not put pressure on the charging board or make it collide with hard objects.
2. Do not disassemble or throw into fire or water to avoid causing a short circuit leakage.
3. Do not use wireless charger in severely hot, humid or corrosive environments to avoid circuit damage and leakage phenomenon.
4. Do not put the charging board in close proximity with a magnetic stripe or chip card (ID card, bank cards, etc.) to avoid magnetic failure.
5. Please keep a distance of at least 20cm between implantable medical devices (pacemakers, implantable cochlear, etc.) and the wireless charger to avoid potential interference with the medical device.
6. Keep away from children to ensure that they won't play with the wireless charger as a toy to avoid unnecessary accidents.

STORAGE CONDITIONS

Keep the device in a dry, well-ventilated place, far from heaters and direct sunlight. Keep the device out of reach of children. Do not bite or lick the device, as it may cause damage or explode the device. Children or persons with disabilities should not use the device without supervision of a responsible person . Do not dispose with household waste! Required to dispose this electrical device at designated recycling collection points for electrical devices. It ensures that the device is recycled professionally and prevents the release of harmful substances into the environment. Make sure the device is uncharged before disposal.

OPERATION OF THE DEVICE

1. Place the wireless charger on a flat surface.
2. Use the (supplied) USB-c cable and connect the wireless charger to a wall socket. LED indicator will quickly turn on and then turn off.
3. Place your device (for example, smartphone with Qi receiver) at the center (1). When you put the device on the Wireless Charging surface the LED indicator for that wireless charging area lights white* Qi-receiver in your device should be precisely at the center of one of wireless charging areas.
4. Once your device is charged entirely, pull it from the wireless charger.
5. Disconnect the wireless charger from the wall socket.

* If the LED is blinking or not white, please check that your device supports Qi. Also be sure there are no foreign objects between your device and the wireless charger and recheck position of the device.
