FCC and ISED Canada Statement

This device complies with Part 15 of the FCC Rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

This Class B digital apparatus complies with Canadian ICES-005. Cet appareil numérique de la classe B est conforme à la norme NMB-005 du Canada.

Controlling the Device with Your Voice

What You Need

- ① Open the app, then tap the device icon to enter detail page.
- ② Tap the setting icon in the top right corner.
- ③ Select Using Guidance and follow on-screen instructions to control the device using your voice.

Specifications

Adapter Input	AC100-240V
Light Input	12V/2A
Lumens	150lm/Pcs
Color	RGBWW
Color Temperature	2200K-6500K
Control Method	App, Voice, On-Device Buttons
Working Temperature	14°F to 104°F (-10°C to 40°C)

Troubleshooting

- ① Connection to Govee Home App:
 - a. Check if the fixture light is powered on.
 - b. Check if your smartphone's Bluetooth is enabled, or try connecting with another smartphone.
 - c. When connecting for the first time, ensure the smartphone is near the fixture light.
 - d. If the connection fails, please delete the connected fixture light from "My Device" on the app.
 - e. Reconnect to Govee Home App following the instructions provided previously.
- ② Wi-Fi connection failed to connect:
 - a. Check if the fixture light is powered on.
 - b. Do not skip connecting to Wi-Fi during the pairing process.
 - c. Ensure your Wi-Fi router is 2.4 GHz capable (5 GHz is not supported).
 - d. Ensure you enter the correct Wi-Fi password during the Wi-Fi connection process.
 - e. Try connecting the fixture light with a smartphone hotspot to check if your home network is working properly.
 - f. Shorten the distance between the fixture light and the Wi-Fi router to less than 50ft, then try connecting.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
