Laser Etch

Focus Laser Mark-Right Side

Laser Mark Left

The image shows a black, C-shaped component, likely a part of a medical device or a sensor. It has a curved, semi-circular shape with a central opening. There are two red rectangular boxes highlighting specific parts of the component. The first box is on the left side, and the second box is on the right side. Both boxes are labeled with red text. The component has a small circular feature at the top center and a larger, more complex feature at the bottom center. The background is a plain, light-colored surface.
