

Caution

1. Do not disassemble or throw into fire or water.
2. Do not expose to extreme weather conditions.
3. Do not place close to a magnetic strip or strip card as it could cause magnetic failure.
4. Please keep charger a safe distance of at least 80cm from any implantable medical devices to avoid medical device interference.
5. This is not a toy and should be kept away from children.
6. In the case of the device overheating, please disconnect immediately.

Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Cygnett takes no responsibility for damages caused by incorrect use of its products. Made in China.

This symbol on the product indicates that this product shall not be treated as household waste. Instead it shall be sent to the applicable collection point for the recycling of electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health. For more information about the recycling of this product, please contact your local city office.

Australian Consumer Law

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Cygnett warrants this product against defects in workmanship and material for a period of two (2) years from its original purchase date. You must present your receipt as proof of date of purchase for warranty validation. Please read the following information carefully and retain this for any warranty claim.

Terms & Conditions

- This product is for household use only. If the product is used in a commercial environment, the warranty period will be automatically reduced to three (3) months.
- Cygnett warrants that, with normal use or service, the product will be free from faulty parts, manufacture or workmanship.
- The warranty does not apply where damage is caused by other factors, e.g. mishandling, abuse, accident or failure to follow operating instructions.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to connect the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 00cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

RACE PRO 10W WIRELESS CHARGER – VENT

USER MANUAL

- A** Spring-loaded clip
- B** Adjustable ball joint for tightening ring
- C** USB-C Input
- D** Wireless charging output
- E** Magnetic holders

Installation Instructions

Vent Mounting

Attach the product to your vent by pushing the spring-loaded clip (A) and hook it onto the back of the vent blades in your vehicle. Once hooked on, release the spring-loaded clip to grip onto the vent.

Adjusting the viewing angle

Adjust the angle by loosening the tightening ring (B) of the ball joint on the back of the product. Once you are happy with the viewing angle, tighten the ring (B) to hold in place.

Connecting the power source

Take the included USB-C to USB-A cable and connect it to the USB-C input (C) of the wireless charger. Plug the USB-A end into the 12V USB Car Adapter and plug into your vehicle's 12V power socket.

Applying the magnets

With your device placed face down (without or with a case) on a flat surface, align the stencil's indicated centre to your device's centre. Apply the magnets in the stencil's cut-outs, then press and hold firmly for 30 seconds. Alternatively, place the larger set of magnets between your case and device on the top and bottom half of your device.

Charge your device wirelessly

To wirelessly charge your device, place it over the wireless charging output (D), making sure the magnets on your device are aligned with the magnetic holders (E).

Product Specifications

Name	Race Pro 10W Wireless Charger - Vent
Item Number	JS-WQC-021
USB-C Input	5V=2A (10W) 9V=2A (18W)
Wireless Output	5W, 7.5W, 10W (10W Max)
Total Output	10W Max
FCC ID	2AQAE-JSWQC021
Frequency bands	111.378-151.603KHz
Maximum output power	-10.17dBuA@10m

Troubleshooting

Not charging or slow charging

Please ensure you are using the supplied power adapter within the Race Pro wireless charger. Using other chargers may result in slow charging or no charge at all. If you need to replace the power adapter, please make sure it supports QC 3.0 and supports a 12V USB output.

For optimum charge speed, adjust your device so that it is aligned to the centre of the wireless charging output (D). Please ensure that the case on your phone is not affecting the wireless charging by removing it and checking the performance. Some cases interfere with wireless charging if they contain metallic material or are overly thick.

Ensure that the magnets are not interfering with the wireless charging feature of your device, by allowing sufficient space from the centre of your device. Please note that this product may not be suitable for devices with central rear cameras or have large cameras which cover the area required for the magnetic plates.
