

## Letter of Certification

This is to formally certify that:

The tune up procedures of Portable PA SYSTEM is not open to end user. The end user is not allowed to perform final tune.

All the power and frequency set up were finished at the manufacturer stage.

Rated Peak RF power output:

VHF 195.1MHz: 4±2 dBm

VHF 204.05MHz: 4±2 dBm

Then these appropriate gain settings are stored in each phone individually. The user has no possibility to change these settings later on, and during manufacturing each phone will be individual calibrated. The measurement is done in fully calibrated setup, which is based on a Rohde & Schwarz CMW500 base station simulator. Furthermore, the highest power level is verified

Yours sincerely,

A handwritten signature in black ink, appearing to read "BH Kang". The "BH" is on the left, with a vertical line extending downwards from the "B", and "Kang" is written to the right of it in a cursive script.
