# Quick Start Manual

## Side Control Panel

- To turn the speaker on, press  once.
- To turn the speaker off, press  once.
- For the first time pairing, press the Bluetooth Connection key  once. The speaker will sound out [ Pairing ] to confirm the action.
- Select [ VisualSonic ] displayed on your mobile / tablet or any Bluetooth devices and click on the connection.
- After successful pairing and connection, the speaker will sound out [ Connected ], and the Bluetooth LED Indicator will turn into solid blue.
- Press the TWS Connection keys  of each speaker to turn on and start True Wireless Stereo ( TWS ) linking.
- The TWS Connection keys  of both speakers must be turned on within 2 minutes to enter into TWS connection.
- The TWS LED Indicator of each speaker will become solid blue when the TWS link is successful and both speakers will sound out [ TWS connected ].

**After the first time successful connected with Bluetooth devices / TWS, whenever you turn on the speakers, it will reconnect automatically.**

- When the speaker is turned ON and not in charging, the Battery Indicator  will keep flashing to indicate low battery level less than 20% ( speaker needs charging ).
- Plug in the USB cable provided to charge the speaker, then the Battery Indicator  will slow flash until fully charged.

## FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
