

Wireless charging receiving board **user Manual**

Parameter specification

- Model:UTL-BK-IWTRM505016010
- Input voltage/current:12V/1A
- Input voltage/current:12W
- Product standard:WPC-1.2.2 compliant
- Efficiency:87% peak efficiency using
- temperature range:-40°C to +85°C
- Product size:72.7*54.4*4.7mm

Wireless charger output: below 15W

※

Instructions

1. Plug the battery into the socket.
2. Put the computer on the wireless charging board correctly. The green light of the indicator light is on and the buzzer make a short sound one time indicates the start of charging, when remove computer, all the indicator lights out, the wireless charging board into a standby mode.

Packing List

1. Computer battery with
Wireless Charging function
2. User Manual

Important notes

1. Please remove the protective case (except receiver case) when charging, to keep high efficiency.
2. It is strictly prohibited to use other power equipment other than the specified power source to power the product.
3. Do not disassemble or throw into fire and water, to avoid causing a short circuit leakage.
4. Do not use wireless charger in severely hot, humid or corrosive environments, to avoid circuit damage and occurs leakage phenomenon.

5. Do not place too close with magnetic stripe or chip card (ID card, bank cards, etc.) to avoid magnetic failure.
6. Please keep the distance at least 20cm between implantable medical devices (pacemakers, implantable cochlear, etc.) and the wireless charger, to avoid potential interference with the medical device.
7. Take care of the children and ensure they won't play the wireless charger as a toy to avoid unnecessary accidents.

Warranty

There is one year guarantee for this product unless anthropogenic factor.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
