

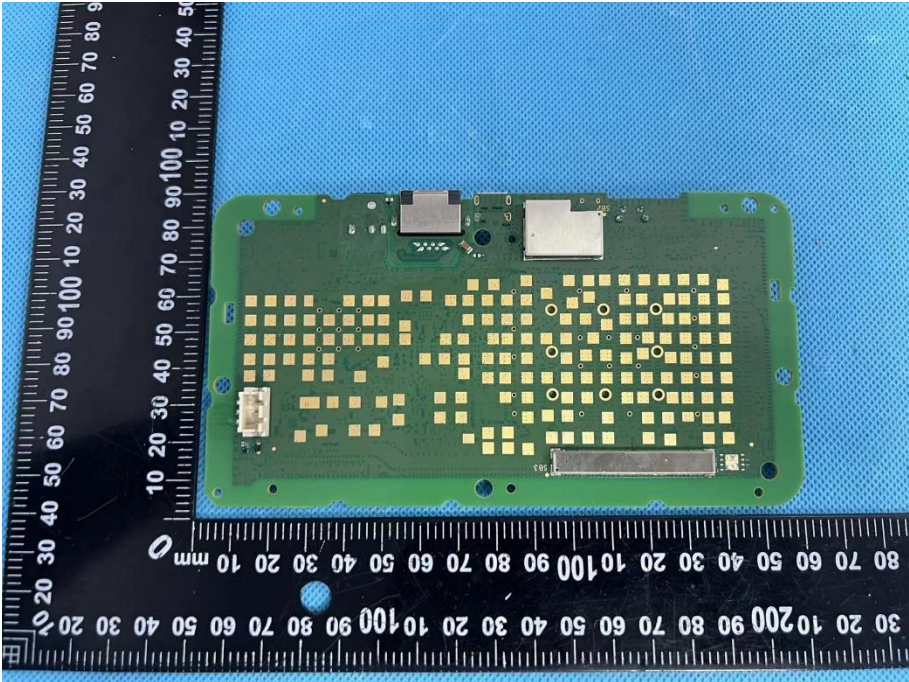

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 This photograph shows the internal components of the EUT housing. On the left is a green printed circuit board (PCB) with a grid of yellow solder pads and various electronic components. To the right is the black plastic housing, which has a rectangular cutout in the center. A black ruler with white markings is placed horizontally below the components, showing measurements in millimeters.
EUT Housing and Board View 2	 This photograph shows the internal components of the EUT housing from a different perspective. A blue battery is visible in the center, with a white label that includes the text "FOXSY" and "CE". To the right is the black plastic housing, which has a rectangular cutout in the center. A black ruler with white markings is placed horizontally below the components, showing measurements in millimeters.

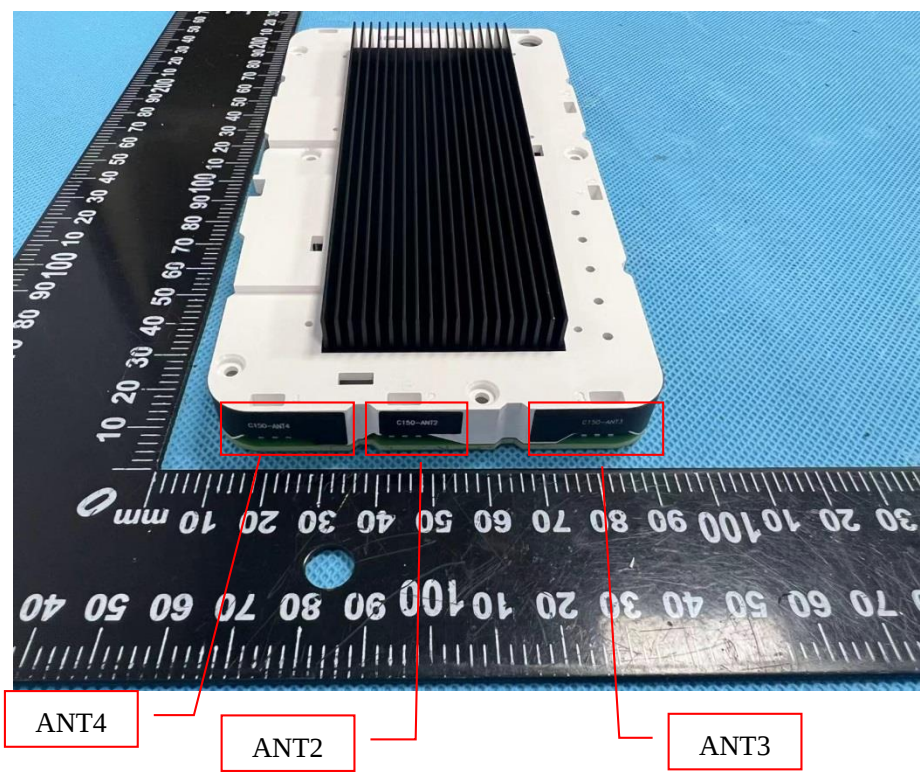

Solder Board-Component View 1	 A photograph showing the top view of a white rectangular solder board component. The component features a central black rectangular area with numerous vertical black lines, likely representing a microchip or a specific solder pattern. The board has several small holes and mounting points. It is placed on a blue textured surface next to a black ruler with white markings, which shows dimensions in millimeters.
Solder Board-Component View 2	 A photograph showing the bottom view of the same white rectangular solder board component. The component has a black rectangular area with vertical black lines, similar to View 1. The board has several small holes and mounting points. It is placed on a blue textured surface next to a black ruler with white markings, which shows dimensions in millimeters.

Solder Board-Component View 3	 A photograph showing the top view of a white electronic component with a black heat sink. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters. The component has three labels: "C150-ANT5", "C150-WIFI", and "C150-ANT7".
Solder Board-Component View 4	 A photograph showing the bottom view of the same electronic component. The green printed circuit board (PCB) is visible, featuring a grid of gold-colored solder pads. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters.

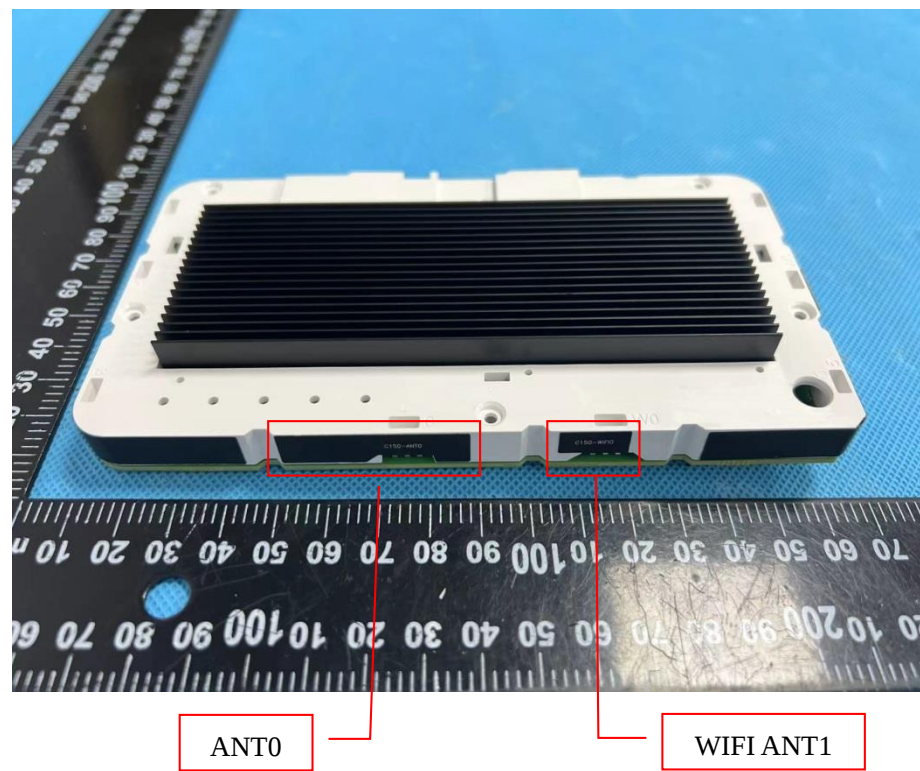

Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, likely a heat sink or thermal interface material, placed on a blue textured surface. The component is rectangular with a large black heat sink area. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with the 0 mm mark at the top and the 200 mm mark at the bottom.
Solder Board-Component View 6	 A photograph of a green printed circuit board (PCB) component, likely a heat sink or thermal interface material, placed on a blue textured surface. The component is rectangular with a large black heat sink area. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with the 0 mm mark at the top and the 200 mm mark at the bottom.

Solder Board-Component View 7	 A photograph of a green printed circuit board (PCB) with a grid of yellow solder pads. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The board has a small white connector on the right side and some electronic components at the bottom.
Solder Board-Component View 8	 A photograph of the same green PCB from a different angle, showing various electronic components including integrated circuits, capacitors, and connectors. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). A red wire is connected to one of the components on the board.
