Re: Change of Identification Request

Original FCC ID: 2AKEZ-Q1  
New FCC ID: 2AQTA-FSX1

To whom it may concern,

The following is a request for change in identification as provided in C.F.R. Title 47 §2.933. This application will establish a new FCC ID: 2AQTA-FSX1 under Arlig LLC's grantee code. The original grant for FCC ID: 2AKEZ-Q1, issued 12/04/2016 will remain in effect.

The equipment bearing the modified identification differs from the original equipment in the following ways: -

New Model name, trade name, FCC ID number

The original test results continue to be representative and applicable to the equipment that will bear the new identification. Please find attached the following;

- Sample of the new label and location
- External photos of the device

Due to the small size of the device it is not practical to etch a legible FCC ID on the device and therefore will be placed on the box and within the user manual.

Please also accept this letter as an attestation that neither Arlig LLC nor any of its officers, directors, or persons holding 5% or more of the outstanding stock or shares, voting or non-voting, have been denied federal benefits under section 5301 of the Anti-Drug-Abuse act of 1988,21 U.S.C. 853(a). In addition, Arlig LLC will notify the Federal Communications Commission if, at any time, the situation changes causing Arlig LLC to be denied federal benefits.

Sincerely,

A handwritten signature in black ink, appearing to read "Kendall Johnson".

Kendall Johnson

Manager, Arlig LLC

PO Box 872

Argyle, TX 76226

## FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC ID 2AQTA-FSX1

## Safety Instructions

The earbuds have a non-removable, rechargeable Li-ion battery. Do not attempt to remove the battery. Do not alter the headphones in any way.

Do NOT use the earbuds at a high volume for an extended length of time. To avoid hearing damage, use the earbuds with a comfortable volume.

Follow all laws regarding headphone use while driving.

Ensure you can hear surrounding sounds such as alarms or warning signals at all times.

Avoid exposing the earbuds to excessive heat. If the earbuds become warm or lose audio, discontinue use immediately.

Do not submerge the earbuds in water or wear while participating in water sports.

The earbuds contain magnetic material. Consult your doctor if you have an implantable medical device.

If any part of the earbuds are damaged, do not use them.

Do not use harsh chemicals or strong detergents to clean the earbud.

**WARNING:** This product can expose you to chemicals which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).
