

2 in 1 charging stand

Model NO. ST12Black

- ① Highest internal frequency: 205kHz
- ② Input: 9V/2A~9V/3A
- ③ Output: Earphone: DC5V/1A(Max)
Phone wireless charging pad: DC9V/1A(Max)

Parts List

Note: If parts in the packing box don't check with the list, please contact us in time.

2in1 Stand *1

Type-C Cable *1

Type-C Cable must be connected to the QC charging port of your adapter (Adapter Not Included)

Height Adjustable Coils
Perfect Compatibility
For any Phone Size

Reasons why the device doesn't work

1. Covered by something (metal object)

2.High temperature protection:

Try again later.

3.Adapter failure

Adapter
Adaptor output voltage
your adaptor fails

We recommend adapter with QC2.0 standard or above
(Can be compatible with 3V/1A power adapter,
But the charging speed will be extremely slow).

4.Other reasons

If the problem still cannot be solved, please contact us.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This device has been tested and found to comply with the requirements of part 15 of the FCC Rules, and its operation could void the user's authority to operate the equipment. Note: This equipment has been tested and found to comply with the requirements of part 15 of the FCC Rules, and its operation could void the user's authority to operate the equipment. This equipment is designed to provide reasonable protection against harmful interference in a residential environment. This device may cause harmful interference to radio communications, may cause harmful interference to radio communications, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
