

Hello TCB

This application for Somewear is so that the Satellite Hotspot model SWL-1 can be marketed with a Laird BL652 SA01 Bluetooth module and a Iridium 9603N module (FCC ID: Q639603N) installed. However it will be used in a portable condition so two steps are required to obtain certification as follows:

1. FCC Change in ID – Iridium has agreed to allow Somewear to market their 9603N module under the Somewear name. So for the Change in ID see attached the following exhibits
 - a. Application Form: APP_FCC_-_Jul_2018_-_SWL__rev_0.2_signed
 - b. Iridium approval letter for CHID: Somewear Labs FCC corrected
 - c. Somewear request for CHID approval: FCC_Change_in_ID_Somewear_letter_head_signed
 - d. Example Label for the Module: module_updated
2. FCC C2PC to allow for a portable condition on the grant
 - a. Application form: Missing
 - b. SAR report: Somewear Labs FCC Rev B
 - c. Somewear request for C2PC for Portable condition:
C2PC_change_of_grant_conditions_completed_signed
 - d. Label and Label location: module_updated
 - e. SWL-1 Theory of operation – HOST - : Somewear Hotspot TOO
 - f. CO-Location Test report in Host – SWL-1:
 - i. FCC B: 352148 - 1TRFEMC (FCC SubPart B)
 - ii. FCC C: 352148 - 1TRFEMC (FCC SubPart C)
 - g. Block Diagram in Host – Block Diagram
 - h. Manual - XXXXX
