

The description of difference

We entrust Shenzhen Hongcai Testing Technology Co., Ltd. international check & authentication corporation to make FCC authentication of TR107, The TR107 catena is include:

TR107E and TR107F;

They use same SCH & PCB, and use same material;

The difference of them:

TR107E have switch, but TR107F have no switch;

The silk-screen on the middle KEY is different between the two models:

TR107E is nature design, but TR107F is time design.
