

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a white plastic housing. The housing is open, revealing a green printed circuit board (PCB) with various electronic components. A ruler is placed horizontally below the housing for scale, showing measurements in millimeters. The background is a blue textured surface.
EUT Housing and Board View 2	 A photograph showing the internal components of a white plastic housing from a different angle. The housing is open, revealing a green printed circuit board (PCB) with various electronic components. A ruler is placed horizontally below the housing for scale, showing measurements in millimeters. The background is a blue textured surface.

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The board is rectangular with various electronic components, including a large integrated circuit (IC) and several smaller components. It is placed on a blue background with a white ruler for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 2	 A photograph of the same green PCB component, labeled 'Solder Board-Component View 2'. This view shows the underside of the board, which has a white solder mask and several large, rectangular solder pads. It is placed on a blue background with a white ruler for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 3	 A photograph showing a green printed circuit board (PCB) with various electronic components soldered onto it. The components include a small integrated circuit (IC), several resistors, and a capacitor. The PCB is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The PCB is oriented vertically, and the ruler is placed horizontally next to it.
Solder Board-Component View 4	 A photograph showing the same green printed circuit board (PCB) as in View 3, but from a different angle. The components are visible from the opposite side of the board. The PCB is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The PCB is oriented vertically, and the ruler is placed horizontally next to it.
