

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

EUT View 1	 A photograph showing two white electronic components on a blue textured surface. On the left is a rectangular device with a circular control area featuring a square button and four dots. Above it are two circular sensors. To its right is a smaller, L-shaped component. A black ruler with white markings is positioned vertically to the left of the devices, showing measurements in millimeters and centimeters.
EUT View 2	 A photograph of the same rectangular white electronic device as in View 1, positioned on a blue textured surface. A black ruler with white markings is placed vertically to its left for scale. The device's features, including the circular control area and sensors, are clearly visible.

EUT View 3	 A photograph showing a white, rectangular electronic unit (EUT) from a top-down perspective. The unit is positioned vertically on a blue textured surface. To its left is a black L-shaped ruler with white markings in millimeters and centimeters. The unit has a small square feature near the top and a larger rectangular feature near the bottom. The ruler indicates the unit is approximately 100 mm high and 30 mm wide.
EUT View 4	 A photograph showing the same white, rectangular electronic unit from a different perspective, likely the front or back. It is placed on the same blue textured surface next to the same black L-shaped ruler. This view shows a circular feature in the center and two smaller circular features above it. The ruler indicates the unit is approximately 100 mm high and 30 mm wide.
