

IMPORTANT SAFETY INSTRUCTIONS

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not install near any heat sources such as radiators, heaters, stoves, or other devices (including amplifiers) that produce heat.
6. Only use attachments and accessories specified by the manufacturer.
7. CAUTION: Danger of explosion if battery is incorrectly replaced. Only replace with the same or equivalent type.
8. WARNING: The battery (battery or batteries or battery pack) should not be exposed to excessive heat such as sunshine, fire or the like.
9. WARNING: No naked flame sources, such as lighted candles, should be placed on the apparatus.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. FCC Regulations Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

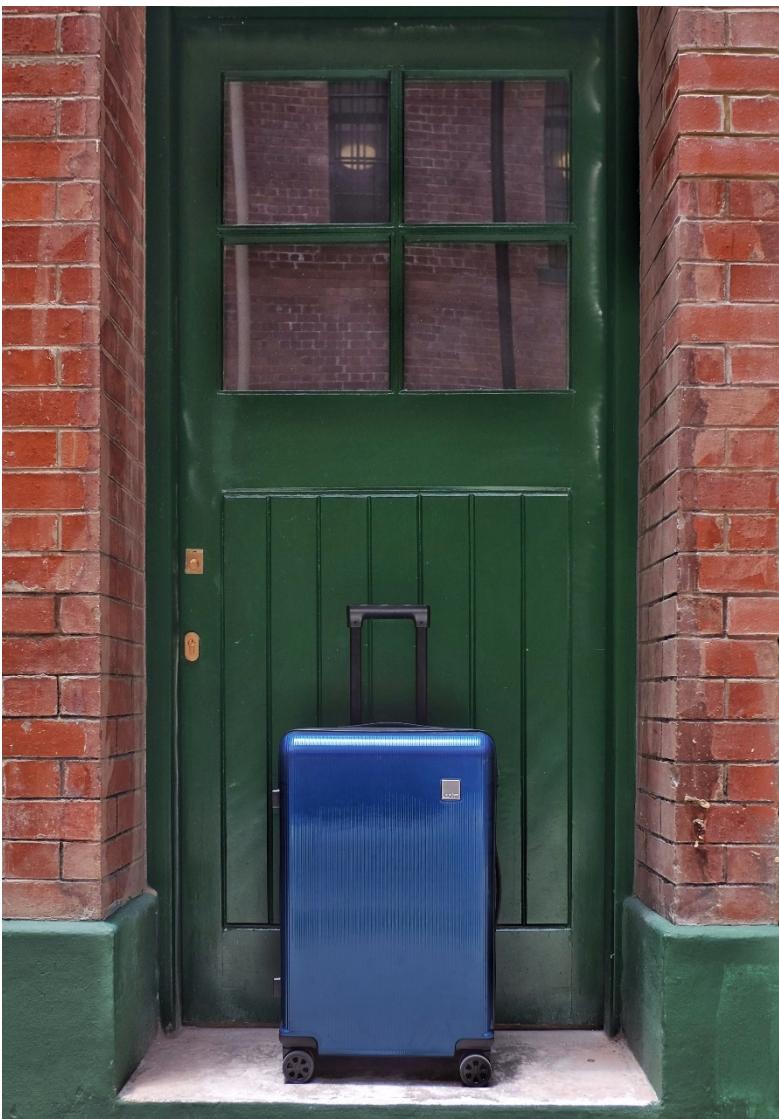

Modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment under FCC rules.

The FCC ID: 2AQZV-ZL001 is located on the backside of the lock, near the battery compartment. The lock is accessible via a zipper in the liner on the inside of the suitcase.

CE Conformity

Lantrn Limited declares that this device complies with the essential requirements and other relevant provisions of European Directives. The declaration of conformity may be consulted upon request to Lantrn Limited, Hong Kong or on <http://lantrn.co>.

This product can be recycled. Products bearing this symbol must NOT be discarded with normal household waste. At the end of the product's life, take it to a collection point designated for recycling of electrical and electronic devices. Find out more about return and collection points through your local authority. The European Directive on Waste Electrical and Electronic Equipment (WEEE) was implemented to dramatically reduce the amount of waste going to landfills, thereby reducing the environmental impact on the planet and human health. Please act responsibly by recycling used products. If this product is still usable, consider giving it away or selling it. Used batteries: Please dispose of used batteries properly, following the local regulations. Do not place the battery in fire. Operating Temperatures: 5 – 40 deg °C / 41 – 104 deg °F

Thank you for ordering your Lantrn suitcase. It's the most secure bag in the world.

Before you set off on your travels, please download the app from Apple's App Store. You need the Lantrn App to be alerted of any tampering that happens to your bag while traveling.

The app will guide you on how to setup the built-in alarm system. In summary, the operational steps include the following:

- 1) Move the lock slider 3 times to enter pair mode.
- 2) A yellow flashing light will show that the bag is ready to pair.
- 3) A prompt to connect will appear automatically in the Lantrn App and once pressed the bag will automatically pair.
- 4) Once the bag is locked, a green light will flash to indicate the bag is in monitoring mode.

Safe travels.

On the front: A Lantrn Secure suitcase on a trip. It keeps your belongings safe while you travel, get yours at www.lantrn.co
