

Welcome!!

Thank you so much for buying Playdate.

Press Lock three times to get started.

If nothing happens, charge your Playdate.

Tips

- To use the crank, **pull it out from the bottom**, then flip it all the way up.
- Press the **menu button** to adjust **volume** and more!

Help

If you need **any help** with Playdate, or if something isn't working right, please contact us on the web at play.date/help/

Some Regulatory Info

Warning: changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: this equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules
Operation is subject to the following two conditions:

- This device may not cause harmful interference, and
- This device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The portable device is designed to meet the requirements for exposure to radio waves established by the Federal Communications Commission (USA). These requirements set a SAR limit of 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported under this standard during product certification for use when properly worn on the body

FRONT

<p>This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment. End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.</p> <p>The portable device is designed to meet the requirements for exposure to radio waves established by the ISED. These requirements set a SAR limit of 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported under this standard during product certification for use when properly worn on the body.</p> <p>This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:</p> <ol style="list-style-type: none"> (1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device. <p>Cet équipement est conforme aux limites d'exposition aux rayonnements ISED établies pour un environnement non contrôlé.</p> <p>Model: PDU-01 FCC ID: 2AR29-PDU01 IC: 260061-PDU01</p>	<p>L'utilisateur final doit suivre les instructions spécifiques pour satisfaire les normes. Cet émetteur ne doit pas être co-implanté ou fonctionner en conjonction avec toute autre antenne ou transmetteur.</p> <p>Le dispositif portatif est conçu pour répondre aux exigences d'exposition aux ondes radio établie par le développement énergétique DURABLE. Ces exigences un SAR limite de 1,6 W/kg en moyenne pour un gramme de tissu. La valeur SAR la plus élevée signalée en vertu de cette norme lors de la certification de produit à utiliser lorsqu'il est correctement porté sur le corps.</p> <p>L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :</p> <ol style="list-style-type: none"> (1) L'appareil ne doit pas produire de brouillage; (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement. 	<p>Hereby, Panic Inc. declares that the radio equipment PDU-01 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: http://www.play.date/regulatory</p> <p>Accessing the Electronic Label (eLabel)</p> <ol style="list-style-type: none"> From the launcher, use the UP/DOWN buttons on the d-pad to find Settings. Press A. Press UP/DOWN to highlight System. Press A. Press UP/DOWN to highlight Regulatory Labels. Press A. <p>Responsible Party Panic Inc / 315 SW 11th Ave 4th Floor / Portland OR / 97205 / USA</p> <p>ESD Event In case of electrostatic discharge, Playdate will reset to the main menu.</p>	<p>Battery There's danger of explosion if the battery is incorrectly replaced. Replace it only with the same type. Don't expose it to excessive heat or fire.</p> <p>CAUTION</p> <ul style="list-style-type: none"> Risk of explosion if the battery is replaced by an incorrect type disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion; leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas; a battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas. <p>Disposal When it's time to move on, don't throw Playdate in the trash. Dispose of it separately by bringing it to your local electronics recycling point. With little effort, you can recycle valuable raw materials properly and safely.</p> <p>Charging An AC adapter for charging is not included. It is recommended to use an AC adapter with a rating no higher than 5V/2A.</p>
