

English:

Notice of compliance

The device complies with the FCC rules, Part 15. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

FCC rules

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Canada:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation of the device.

CAN ICES-3(B)/NMB-3(B)

IC Radiation Exposure Statement:

This equipment complies with Canada radiation exposure limits set forth for uncontrolled environments.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

French:

Avis de conformité

Cet appareil satisfait aux règlements de la FCC partie 15 du Code of Federal Regulations. Son fonctionnement est assujéti aux deux conditions suivantes :

1. Cet appareil ne doit pas causer d'interférence préjudiciable et
2. L'appareil doit accepter toute interférence reçue, y compris les interférences qui peuvent causer un fonctionnement non désiré.

Règlement de la FCC

Cet équipement a été testé et jugé compatible avec les limites s'appliquant aux appareils numériques de la classe B, conformément à l'article 15 du règlement de la FCC. Ces limites ont été définies pour fournir une protection raisonnable contre les interférences nuisibles dans le cadre d'une installation résidentielle. Cet équipement génère, utilise et peut émettre de l'énergie radiofréquence et, s'il n'est pas installé ni utilisé conformément aux instructions, peut causer des interférences gênantes pour les communications radio. Rien ne garantit toutefois que des interférences ne surviendront pas dans une installation particulière. Si cet équipement cause des interférences nuisibles pour la réception de la radio ou de la télévision, ce qui peut être déterminé en mettant l'équipement hors tension puis sous tension, l'utilisateur devra essayer de corriger ces interférences en effectuant une ou plusieurs des opérations suivantes :

- Déplacez l'antenne de réception.
- Augmentez la distance entre l'équipement et le récepteur.
- Branchez l'équipement à une prise d'un circuit autre que celui sur lequel le récepteur est branché.
- Consultez le détaillant ou un technicien de radiotélévision expérimenté.

Canada:

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

CAN ICES-3(B)/NMB-3(B)

Déclaration d'IC sur l'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux radiations définies par le Canada pour des environnements non contrôlés. Cet émetteur ne doit pas être installé au même endroit ni utilisé avec une autre antenne ou un autre émetteur.

Important

Hearing safety

Caution

- To prevent possible hearing damage, do not listen at high volume levels for long periods. Set the volume to a safe level. The louder the volume, the shorter is the safe listening time.

Be sure to observe the following guidelines when using your headphones.

- Listen at reasonable volumes for reasonable periods of time.
- Be careful not to adjust the volume continuously upwards as your hearing adapts.
- Do not turn up the volume so high that you can't hear what's around you.
- You should use caution or temporarily discontinue use in potentially hazardous situations.
- Excessive sound pressure from earphones and headphones can cause hearing loss.

Electric-, Magnetic- and Electromagnetic Fields (EMF)

This product complies with all applicable standards and regulations regarding exposure to electromagnetic fields.

General information

- **To prevent fire or shock hazard:** Always keep this product dry. Do not expose it to excessive heat by heating equipment or direct sunlight.
- No naked flame sources, such as lighted candles, should be placed on the apparatus.
- Do not allow your headset to be submerged in water.
- **To clean the product:** Use a slightly dampened chamois cloth. Do not use cleansing agents containing alcohol, spirits, ammonia or abrasives as they may harm the product.
- Do not disassemble the product.
- Do not operate or store the product in a place where temperature is below 0°C (32°F) or above 40°C (104°F) as this may shorten the battery life.
- This product shall not be exposed to dripping or splashing.
- The mains plug of AC/DC adaptor is used as the disconnect device, the disconnect device shall be readily operable.
- Use only the supplied batteries.
- Other types of rechargeable or alkaline batteries cannot be charged with this system.
- Batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.

Declaration of conformity

Hereby, MMD Hong Kong Holding Limited declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. You can find the Declaration of Conformity on www.p4c.philips.com.

Disposal of your old product and batteries

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

This symbol on a product means that the product is covered by European Directive 2012/19/EU.

This symbol means that the product contains batteries covered by European Directive 2013/56/EU which cannot be disposed of with normal household waste.

Inform yourself about the local separate collection system for electrical and electronic products and batteries. Follow local rules and never dispose of the product and batteries with normal household waste. Correct disposal of old products and batteries helps prevent negative consequences for the environment and human health.

to **0dB** (figure 2a).

- For devices with an RCA output, connect one side of an RCA adapter (sold separately) to the RCA output of the audio device, and another side to the supplied 3.5 mm audio cable. Connect the remaining side of the 3.5 mm audio cable to the 3.5 mm audio input of the docking station. Then switch to **AUDIO IN SELECT** and switch **ATT** to **-8dB** (figure 2b).
- For devices with an optical output (SHD8850 only), connect one side of the supplied optical cable to the optical output of the device, and another side to the optical input of the docking station. Then switch to **OPTICAL SELECT** (SHD8850 only) (figure 2c).

2 Connect the power adapter (figure 3).

3 Pull the battery tape off before charging (figure 4).

4 Charge the headphones (figure 5).

Use your headphones

1 The headphones turn on automatically when you wear them on your ears (figure 6).

- For devices with a 3.5 mm audio output, turn up the volume level. If the volume is too low, the auto switch-on of your headphones will not respond.
- You can also use the headphones with the supplied audio cable to connect to smart devices or for outdoor use (figure 7).

2 When the batteries are old or defective, purchase and replace with new rechargeable batteries with the same specifications (figure 8).

LED indications

Status	LED on docking station	LED on headphones
Searching	N/A	Green LED flashing
Connection established	White LED on	Green LED on
Low volume level	White LED flashing slowly*	N/A
Low battery level	N/A	Green LED flashing slowly
Charging	Green LED flashing	N/A
Fully charged	Green LED on	N/A

* The white LED on docking station turns off after 5 minutes.

Sound indications

Low battery level	1 beep per minute*
Reaching maximum volume level.	1 beep

* The headphones beep twice and turn off after 5 minutes.

Technical data

General specification and features

- Music time (headphone variation): minimum 20 hours
- Normal time for a full charge: 6 hours
- Operating range: Up to 30 meters
- Optical input / 3.5 mm input switch (SHD8850 only)
- 2.4 GHz RF solution
- Hi Res audio (for wired connection only)
- Auto power on/off
- Attenuator on/off

Transmission

- Carrier / reception frequency: 2.406-2.472 GHz

For further product support, please visit www.philips.com/support

Battery

- 2 x AAA NiMH 900 mAh rechargeable batteries (Philips SBC HB900S)

Adapter

- Philips: YLJXB-T050055, input: 100-240 V~, 50/60 Hz, output: 5 Vdc 550 mA

Weight and dimensions

- Headphones: 367 g
- 219 x 176 x 95 mm (H x W x D)
- Docking station: 190 g
- 74 x 174 x 142 mm (H x W x D)

What's in the box (figure 1)

- 1) Headphones
- 2) Docking station
- 3) User manual
- 4) AC/DC adaptor
- 5) 3.5 mm audio cable
- 6) Optical cable (SHD8850 only)

Connect

Caution

- AAA alkaline batteries can be used to operate the headphones, but cannot be charged with this system.

Note

- Only use Philips rechargeable shortened sleeve NiMH batteries with your headphones. Other types of rechargeable batteries cannot be charged with this system.
- Before using the headphones for the first time, charge the supplied batteries for at least 5 hours.
- If the volume of the audio source is insufficient, the transmitter automatically turns off.
- The docking station does not transmit audio signal when you charge the battery.

1 Connect the audio device (figure 2)

- For devices with a 3.5 mm audio output, connect one side of the supplied 3.5 mm audio cable to the 3.5 mm audio input of the docking station and another side to the 3.5 mm audio output. Then switch to **AUDIO IN SELECT** and switch **ATT**
