

Label&Location

Due to the product size is too small for the FCC ID label to be printed, then the FCC ID is placed in the user manual and on the device packaging. See below for more details.

User manual

Important Notes

1. Do not use corrosive cleaners to clean this product.
2. Avoid using the product in high-temperature or humid environments. Never expose to heat sources, open flames, or fire to prevent explosion.
3. This product contains no user-serviceable parts. Do not disassemble or modify.
4. Do not charge below 0°C to prevent battery damage.
5. Avoid use during thunderstorms as it may cause malfunction and electric shock risks.
6. Maintain moderate volume levels. Prolonged loud volumes may cause hearing damage.
7. Refrain from use in situations requiring full attention (e.g., traffic or skilled work).
8. Use only certified chargers meeting standard requirements.
9. For optimal performance, use USB-C adapters compliant with national standards.
10. Keep accessories and packaging components away from children and pets to prevent accidents/choking hazards.
11. For long-term storage, keep earbuds in charging case in dry conditions. Charge case at least monthly.

Battery Warning

This product contains a built-in battery. Please note the following:

1. Charge promptly when the battery is low. If unused for extended periods, power on the device every 3 months until the battery is depleted, then fully recharge it to prevent damage. Use and store the product within recommended temperature ranges.
2. Do not disassemble, impact, crush, or expose to fire. Discontinue use if severe swelling occurs. Avoid high-temperature environments. If battery life significantly shortens, cease use and consult professionals.

18

3. Improper battery replacement may cause explosion. Use only identical/equivalent battery types. Replacement must be performed by qualified technicians.
4. Battery packs or battery arrays must not be exposed to excessive heat sources including sunlight or open flames.
5. For products containing built-in batteries: When disposing, separate from household waste. Deliver designated e-waste collection points for proper recycling. Never discard casually.

FCC Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

19

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

 All products bearing this symbol are waste electrical and electronic equipment which should not be mixed with unsorted household waste. Instead, you should protect human health and the environment by handing over your waste equipment to a designated collection point for the recycling of waste electrical and electronic equipment, appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. Please contact the installer or local authorities for more information about the location as well as terms and conditions of such collection points.

FCC RF Radiation Exposure Statement:

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
2. This equipment complies with RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 5mm between the radiator and your body.
