(2)Please do not use unrecognized or incompatible power supplies, chargers, which may cause fire, explosion or other hazards.

(3)When charging is complete or not charging, disconnect the charger from the device and unplug the charger from the power outlet.

(4)It is strictly forbidden to place the equipment in an environment with too high or too low temperature to avoid fire, explosion or product failure; it is strictly forbidden to bring the equipment close to heat sources such as ovens, electric heaters, etc., and should not be put into fire; lithium batteries should not be exposed to such as sunshine. , fire roast or similar in an overheated environment.

(5)Do not allow children or pets to swallow this device or its accessories to avoid injury.

## .Disclaimer
(1)Please read the product manual carefully before use and strictly follow the instructions.

(2)This product is not responsible for the translation results.

(3)This product is not waterproof, because the machine damage caused by water ingress is borne by the user.

(4)Do not place this product in an environment with high temperature, high humidity and damage to the product.

(5)Do not allow children or pets to swallow this device or its accessories to avoid injury.

## .FAQ
(1)Please do not turn off the power until the system update is completed.

(2)Please connect wireless network when using this machine, currently we only support 4G network. The network environment may affect the response speed of translation or cause translation failure, please switch to another network at this time.

(3)When translating, press and hold the "Translate" button until you see the microphone icon and speak. To ensure correct speech recognition, please use normal speech speed and release the button when you finish speaking.

(4)Please place the microphone at a distance controlled to within 30 cm from your mouth for clear recognition and translation.

(4)Please place the microphone at a distance controlled to within 30 cm from your mouth for clear recognition and translation.

(5)Please use to speak at normal speed, repeated interruptions or joining two words together will cause the translation to fail.

(6)Please try to speak in a standard voice and reduce the use of dialects and slang.

(7)If the translation is not accurate, try to use a different expression.

# 7.Warranty

FCC Compliance Statement:
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
