

# Instructions for use of Wireless Keyboard

\*\*Please read the instructions carefully before use\*\*

## Keyboard connection operation:

1. Turn on the power supply, and the green indicator light will be lit for one second (if the instruction is red, please charge in time).

Press the matching key "Fn+S" for 1 second, the Wireless indicator lights flicker into the pairing state, and the effective time is about 120 seconds.

Open the Wireless search function of the external device, click the "Wireless Keyboard" searched.

After the pairing is successful, the indicator lights go out, and you can use the keyboard.

2. If there is no operation in 10 minutes, the keyboard will go to sleep state and wait for 2~3 seconds by any key to wake up.

## Disconnect the keyboard connection:

- \* If you want to break the connection between keyboard and device, please clear the pairing information in the device, or turn off the keyboard power directly.

## Electricity indicator:

- \* If the power indicator light is red slowly, the power is low, please charge it in time, the red light is bright when charging. When the indicator is green, it is full, please disconnect the charging power to ensure safety.

**Shortcut function key:** When buttons have multiple functions, please press Fn or Fn+Shift to use them together.

## Basic parameters: (part of the parameters are objective factors will vary).

Working Voltage:	3.0V~4.2V	Working Current:	≤3.0mA
Working Time:	≥100 Hours	Low Voltage Alert:	3.0~3.3V
Sleeping Current:	≤0.3mA	Battery Standby Time:	≥120 Days
Battery Capacity:	≤150mAh	Battery Lifetime:	3 Years
Keyboard Lifetime:	300 Million Times	Keystrokes:	50g~70g
Connect Distance:	≤10m	Charge Input:	5V --- 1A
Charging Current:	≤200mA	Charging Time:	2~3 Hours
Charging Port:	Micro USB	Awaken Time:	2~3 Seconds
Matching Password:	No	Working Temperatur:	-10°C~+55°C

## Maintenance and warning:

- \* Do not squeeze or twist, clap the keyboard.
- \* Do not scan the microwave and get away from the magnetic field.
- \* Away from the liquid and used in a dry environment.
- \* Clean the keyboard with soft cloth, do not turn off the power for a long time.
- \* Other routine maintenance of electronic products.

## Common connection Troubleshooting:

- \* Make sure the power is turned on and the battery is sufficient.
- \* Make sure that the keyboard is within the range of working distance.
- \* Make sure that the Wireless related function of the device has been opened.
- \* Make sure that the keyboard and the device have been paired.
- \* Clear device pairing record and turn off Wireless function; re match.
- \* Please do not connect multiple Bluetooth keyboards at the same time; if necessary, please connect one by one.

\*\* This product will not be updated in time for continuous product improvement. If there is any discrepancy, please refer to physical products.

### **FCC Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement.  
The device can be used in portable exposure condition without restriction.
