

# Assembly Instructions For Lighted Makeup Case

## Parameters

Rated Voltage:	110-250V
Wattage/LED Bulb:	3W*6PCS
Voltage/LED Bulb:	5V
Color Temperature:	6500K(White)/3000K(Yellow)
Audio Output Power(RMS):	3W*2PCS
USB Power Output:	DC5.2V±0.2V 1.5A
Bluetooth Name:	Ovoni
Product Size:	45×34×22.8CM
N.W :	9.1KG
Parts:	1 power cord, 1 usb line, 4 wheels, 4 legs, extendable trays

## User Guide For Adjustable Stand

1. Take out the four legs from the case. Pull out four adjustable stands with one end semi-fixed at the bottom of the case one by one.
2. Connect the screws on the back of the case with the legs and rotate the stand clockwise to place and make sure it is tightly attached to the bottom of the case without any shaking. Loosen the screw rings at one end of the stand by unscrewing it counter-clockwise.
3. Press the two height adjusted buttons located at upper part of the stand and stretch out the lower part of it simultaneously so as to adjust the stand to the right height, tighten the screw rings at the middle of the stand by screwing down them clockwise. Besides, the bottom end of the stands can be adjusted to change the height by rotating the screw rings at the end.
4. Repeat steps No.2-3 so as to make sure four support stands are of exactly the same height.
5. Lift up the case and make sure four support stands stand on the floor evenly and steadily.

## User Guide For LED And Bluetooth

6. Unlatching the two locks on the door and open the case cover. Check if power cord and usb line are available inside the case.
7. Connect the plug socket located on the right of the case cover with the power cord and then you will hear a voice. The switch will turn to blue.
8. Press the switch once to turn on the lights. The lights can be 3 colors ---- yellow, warm white, white. Quickly press the switch twice to change the color. Keep pressing the switch to adjust the brightness. After use, press it once to turn off the lights.
9. Turn on the Bluetooth on your phone. Search 'Ovonni' and connect it.
10. Turn on your music player to play music. Music volume can be adjusted with your phone.
11. Extra plug socket located on the right of the case cover can be used for hair drier, curling rod etc.
12. Please unplug hair drier, curling rod, turn off the lights, unplug the power supply, unplug the 3-pin female plug at one end of the power cord, put the power cord inside the case, close the door and latch it after use.

## Caution

13. Please tear the paper on the aryllic cover of the trays.
14. The product can be used in countries with voltage rated at 110-250V, maximum wattage is 500W.
15. Led is hot when it is in use and risk of scalding, please don't touch. Cool off before led replacement. Please switch off power supply and let the led cool off before the case cover can be closed.
16. Please unplug hair dryer or other high-power electrical appliance immediately after use so that possible accident as a result of overheating and long time working caused by forgotten carelessness can be avoided.
17. In case of smoke or fire, please don't pull the plug with hand if the cause of smoke or fire is unidentified. Power supply must be cut off by using insulator to unplug the product and then ask professional technician for help.
18. Do not shake the support stand or case body as the makeup case may fall down or get damaged or it may pose a risk to personal safety.

Please contact vendor in time if you have any questions regarding the use of the product. Thanks for your cooperation!

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF exposure compliance statement:

This device has been evaluated to meet the general RF exposure requirement, it can be used in portable exposure condition without restriction.
