注意事项

● For safety, do not use headphones when riding a bicycle, motorcycle, or driving. It is dangerous to open the volume too loud to hear outside sounds; pay attention to the careful driving of the surrounding vehicles.

●Don't disassemble,avoid dropping

●Avoid extreme temperature

●Do not place this product in a hot, humid environment.

●Do not submerge in water ,fire or any corrosive cleaner

●Do not place this product on flammable substances when charging.

●Do not remove or replace the built-in battery by yourself, there is a risk of explosion.

● Avoid excessive volume or wear headphones for a long time to avoid hearing loss.

● The noise reduction function is effective in the low frequency range, such as in airplane, train, or office(around the air conditioner, etc.), but the effect on higher frequencies is not obvious, such as vocals

常见问题 common problem

If N1315 wireless Bluetooth headphone does not turn on?

● Check the battery of your N1315 wireless Bluetooth headphone has enough power.

● If your computer's own battery is exhausted, your computer's USB port will not be able to charge the N1315's battery. Try charging the N1315's battery with a 5V (1A or 2A) USB charger. Charging time should be at least 2-3 hours.

If there is no sound in the headphones when you play music？

● Check whether the device and the Bluetooth headphone establish a valid connection. If the audio device fails to connect properly, reconnect it and adjust the volume of the phone and Bluetooth headphone to an appropriate volume level.

If the phone can't search the Bluetooth headphone?

● Please confirm whether the Bluetooth of the mobile phone is in the "Device Visible Mode". If the pairing is not performed for a long time, the Bluetooth pairing function will be automatically closed. Please turn Bluetooth on again to "Device Visible Mode". If the phone program error, please restart the phone;if headphone bluetooth goes wrong, please restart the Bluetooth .

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which

the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the

following two conditions:

(1) this device may not cause harmful interference, and (2) this device must

accept any interference received, including interference that may cause

undesired operation.
